Subject: Claim 11-7282 Additional Information Requested-Action Required within 30 days

Dear Tyler Larsen,

I am reviewing claim 11-7282 with a license basis. The place of use and point of diversion on the claim describes a different location than the license additionally section 13 of the claim states that the trough is located at GPS 42.484647 N, -111.275371 W, which is within the claimed place of use (see attached documents). Please review the attached documents and amend the notice of claim to match the water right cited or amend your claim to describe the accomplished transfer.

It is important that you provide the requested information within the next 30 days in order to expedite your claim. If you do not provide the requested information your claim may be recommended as licensed. Thank you for your time and attention on these matters.

Regards,

Bob Howe
