3. A new submersible well pump upgrade from .5HP to 1 HP with replacement of cracked pipes at a cost of \$4072.23
4. A waterline 4 deep in depth, filled with 1 inch pipe running into the front acres and behind 3 acres with 7 hydrates at a cost of \$2,246.34

5. Fruit tree orchard established in 2023 20 fruit and nut trees with wind break trees
6. Berry patch established 2023 with black and raspberry
7. Large composting area now able to be watered
8. A 14-foot circumferential pond to encourage biodiversity of local habitats
9. In ground home garden for vegetables, fruits and flowers
10. Groundwork completed for greenhouse and table grape
