H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office exam because it is for domestic use, and the total diversion rate is less than 0.24 cfs. The exam was conducted on August 27 2025, by Jared Klay. At the time of the exam, ownership of the permit is in the name of Thomas Young. Current Lemhi County taxlot data represents the permit holder owns the land appurtenant to the place of use (POU) and point of diversion (POD). Proof of Beneficial Use was submitted on August 7, 2025.

Lemhi County aerial imagery and photos provided by the permit holder verify external domestic use on the permit holder's property. These images clearly show a maintained lawn and garden. I am recommending a diversion rate of 0.04 cfs and an annual volume of 0.6 af, per Application Processing Memo #22.

All the conditions of this permit have been met. The permit holder confirmed they are in compliance with Condition R02 and have installed a lockable device. Condition R02, along with all the other conditions on the permit, will be carried forward to the license.
