H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office exam because it is for domestic use for one home and the total diversion rate is less than 0.24 cfs. The exam was conducted on May 19, 2025, by Jared Klay. At the time of the exam, ownership of the permit is in the name of Terry Johnson. Current Lemhi County taxlot data represents Dan Mitchell owns the land appurtenant to the place of use (POU). However, Dan Mitchell is a former owner of the property. We received a warranty deed as part of a change of water right ownership that confirms the property was sold from Dan Mitchell to Terry Johnson. Therefore, the parcel information provided by Lemhi County has likely not been updated yet. The land appurtenant to the point of diversion (POD) is owned by James Lukens. Proof of Beneficial Use was submitted on May 9, 2025.

The source was permitted as a seep tributary to sinks. However, seep is not a valid source. Therefore, the source on the license will be updated to spring tributary to sinks.

Lemhi County aerial imagery verifies domestic use on the permit holder's property. I am recommending a diversion rate of 0.04 cfs and an annual volume of 0.6 af, per Application Processing Memo #22.

All the conditions of this permit have been met. The permit holder confirmed they have installed a lockable device. Therefore, Condition 01H will be updated to Condition R02 per the usage description. All other conditions will be carried over to the license.

Have conditions of permit approval been met? ☒ x Yes ☐ No
