**ORDER AUTHORIZING
TEMPORARY CHANGE**

TC-34-239

A drought emergency has been declared for Butte County to allow administrative actions to lessen the severe impacts of the drought conditions in the county.

Idaho Code § 42-222A provides that upon declaration of a drought emergency, the director of the Department of Water Resources is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code.

On September 22, 2025, Joel Andersen filed the attached Temporary Change Application, seeking to change the point of diversion and place of use for water rights 34-32A, 34-7210B, 34-12034A, 34-2409A, and 34-898.

The Department has reviewed the application and has determined the application can be approved with certain conditions.

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of rights 34-32A, 34-7210B, 34-12034A, 34-2409A, and 34-898 is authorized only at the point of diversion and places of use described on the application.
2. This temporary change approval does not authorize construction of a new well or diversion works as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the diversion and use of water under the temporary change approval cause injury to other water rights, constitute an enlargement in use of the original right, be inconsistent with the conservation of water resources within the state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

5. Rights 34-32A and 34-7210B when combined shall not exceed a total diversion rate of 0.40 cfs and the irrigation of 14.0 acres.
6. Right 34-2409A is limited to the irrigation of 110 acres within the authorized places of use in a single irrigation season. Rights 34-2409A and 34-12034A when combined shall not exceed a total diversion rate of 2.20 cfs and a total annual maximum diversion volume of 462 af.
7. Rights 34-2409A, 34-28D, 34-61C, 34-373C, 34-891A, 34-892C, 34-897, 34-898, and 34-12034A when combined shall not exceed a total diversion rate of 3.77 cfs and the irrigation of 132 acres.
8. Rights 34-61C, 34-897, and 34-898 when combined shall not exceed the irrigation of 70.0 acres.
9. Right 34-12034A is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Idaho Code§ 42-1426. As between water rights decreed as enlargements pursuant to Idaho Code§ 42-1426, the earlier priority right is the superior right. Right 34-12034A is based upon an enlargement of Right 34-2409A pursuant to Idaho Code§ 42-1426. Right 34-12034A is for an enlargement of 22 acres within the places of use described for this right.
10. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the consent of such corporation or irrigation district.
11. The applicant agrees to hold the Director and the State of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
12. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
13. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
11. The watermaster of Water District No. 34 is authorized to administer the temporary change approval.
12. This temporary change approval expires on October 31, 2025 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 24th day of September, 2025.
