To: Bear River Basin Adjudication Claim No. 11-7235

From: Jared Adamson, Water Resource Agent, Sr.

Subject: Evidence of Accomplished Transfer

The water right claim is based on water right license no. 11-7235. The license described the place of use and point of diversion in NWNE, Section 12, T10SR44E. The legal description for the place of use and point of diversion for the water right claim is in NWSE, Section 01, T10SR44E. Aerial photos indicate the described “stockpond” is in the NWSE, Section 01, T10SR44E. There is no indication in historical aerial photos or USGS DRG maps to indicate a pond in the location described on the water right license. The change in place of use and point of diversion is an accomplished transfer. This evidence suggests the place of use and the point of diversion have always been in the claimed location and the legal description listed on the water right license was in error.
