Withdrawal of Protest Form.pdf;

Byron,

Thank you for speaking with me this afternoon. Application 89824 proposes to move water rights 34-2413C and 34-12361 from a shared well to a new well to be constructed by Moj Broadie. You have a concern that the diversion system at the existing point of diversion will pump far more than the water right remaining at the existing well (water right 34-2413A, held by Harry Crawford, 1.67 cfs = 750 gpm). I confirmed that IDWR will conduct an investigation in 2026 to evaluate whether Harry Crawford's diversion from the existing well exceeds the authorized diversion rate under water right 34-2413A. If it does, IDWR will initiate an enforcement action against Harry Crawford. You may need to send me a reminder in 2026 to initiate the investigation.

Based on this commitment to investigate the well, you have agreed to withdraw your protest against Application for Transfer 89824. Attached is a form you can use to withdraw the protest. Feel free to scan a copy of the signed document and email it to me.

James
