

MEMORANDUM

Date: September 5, 2025
To: Transfer 90045
From: Jon Davidson
Re: Review & Evaluation of Sufficiency of Information

Review & Evaluation of Sufficiency of Information
9/30/2025

This transfer proposes to rearrange the place of use for water rights 1-225 and 1-50A to cover unauthorized irrigation occurring on property.

Water right 1-225 does not include a place of use boundary for stockwater. The stockwater use will be updated to include a place of use.

Authority to File: The application was filed and signed by Harold and Tammy Rose who are the owners-of-record for the water rights 1-50A and 1-225. County parcel records show they own the land appurtenant to the current and proposed place of use.

Water Right Validity: Rights 1-50A and 1-225 were decreed in the SRBA in 2007. Aerial photos show continued irrigation. No forfeiture issues identified.

Injury to Other Water Rights: Transfer is the conclusion to an unauthorized water use occurring on the property, regarding place of use of the water rights. Refer to enforcement case 2025-4102. Watermaster does not oppose transfer. No injury issues identified.

Enlargement of Use: Approximately 1 acre of the current irrigated place of use will be dried up and moved to cover the unauthorized irrigation. No enlargement concerns.

Local Public interest: No issues identified.

Beneficial Use/Conservation of Water Resources: No issues identified.

Effect on Agricultural Base of the Local Area: No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
