Chuck,

Here are the prepared claims for **11-4330, 11-7771, and 11-7728** (attached). I took the information we currently have for that water right and put it on the claim, along with the changes you requested. I have also put together a blank map for the location I had in our database. Maps to come in a second email.

Please verify and make changes to be sure these claims and maps to accurately represent your uses of the water. You can use the remarks section to add any other comments and pertinent information. For the stock water claims, in 8. Non-irrigation uses, please list the quantity and type of stock. Also, 10. Will need to be filed in on the claims.

When ready, sign the claims and mail them back to IDWR with the filing fees. The claim fee for each claim currently is:

11-4330 = \$70 (\$50 base fee and \$20 for the 20 acres of irrigation)

11-7728 = \$101 (\$50 base fee and \$51 for the 50.6 acres of irrigation)

11-7771 = \$98 (\$50 base fee and \$48 for the 47.7 acres of irrigation)

\$269 Total

* I did not check to see if the irrigated acres overlap with any of your other claims. If they do, you have already paid the variable fee for the irrigated acres, and do not need to pay it again.

The completed claim with maps and fee can be mailed to:

IDWR

325 E 600 S STE 300

PRESTON, ID 83263

Let me know if you have additional questions!

Jill

Hi Jill,

Yes,
Like the last ones would be great.
Thanks
Chuck

Chuck,

Would it be best for me to send you some semi-prepared claims and maps for 11-4330, 11-7771, and 11-7728, like we did for the other ones?

House wells where daily use is less than 13,000 gallons per day are deferrable. Which means that they are not required in the adjudication, but later down the road they might be, and the adjudication is the cheapest and easiest way to document those uses. So, if you want to document the house wells, it is simplest to do so in the adjudication. You can fill out the online claim form for those uses like you have been doing.

Thanks Chuck!
Jill

Hi Jill,

I finished up all the rights I could find.

There are 3 that I need help with.

11-4330 - This one I need to add 100 head of cattle under the stockwater and the program won't allow it. And, a name change to Bear River Meadows LLC

11-7771 - The program won't allow me to draw a polygon

11-7728 - Program won't allow the polygon and I also need an address change to 3291 N. River Dr. Eden, Utah 84201

A couple more things:

The Fish and Game officer that offered to help investigate the illegal pond on Bailey Creek that was messing everyone up last year name is Raleigh 208-270-9923

and a quick question. Are house wells subject to this adjudication?Thanks

again for all your help,

Chuck
