What is the status of accounting program rollout? I thought it was being implemented in the Payette. I hadn't heard anything about adoption in the Boise. Why would Scott be requesting a meeting on behalf of the watermasters? Gary

Good Morning Victoria:

The purpose of the meeting is to discuss the new water storage accounting model which is being developed for use on the Boise and Payette Rivers. There is concern about the impact of this new model on storage accounting. I am asking for the meeting on behalf of Al Barker, Dan Steenson, and the water masters for both river systems. I hope this helps clarify the purpose of the meeting.

Please contact me if you have additional questions.

Thanks.

Scott
