Yes, I put a CD ROM to Mr. Rosenberg in the mail. I sent him the IMAP Application that can be found in PowerDocs by searching under \*IMAP\* or by water right number 63-2500. I really don't know anything about updating the webpage, and no please do not send anything directly to me. If a request comes through for records then currently Danni Smith is your gal. I don't even know what IDWRinfo is that you are referring to. I am glad that I could help this time, and would be glad to if need be in the future.

Wow, thanks Darla! You are sending a CD ROM to Mr. Rosenberg then? How would you recommend updating that webpage so it reflects the appropriate information (and so I am not out of the loop when I get these inquiries)? Should the email link go directly to you instead of IDWRinfo?

Thanks!

**Subject:** FW: CD ROM request

Here's Kelly's request. Western Region may have prepared something as well.

Jeff - Do you know much about the IMAP application available on our website?  
[http://www.idwr.idaho.gov/News/special\\_interest/UW/united\\_water.htm](http://www.idwr.idaho.gov/News/special_interest/UW/united_water.htm)

I received the CD Rom request for it via IDWRinfo but that application is broken and was broken on our old site as well...

Thanks,  
Kelly

**Subject:** CD ROM request

Can you forward a CD ROM of the United Water IMAP Application to the below address? Thanks.
