RE: APPLICATION(S) TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water for Industrial Use, to irrigate 190 AF from the Idaho Water Resource Board's Water Supply Bank (Bank). The Department will review your application(s) as resources allow. However, because your application was received late in the season the Department may not be able to process your application in time for use this year, or at all. If the application(s) is not processed prior to the latest proposed start date on your application, it will be returned to you.

If your application requests a rental for more than one year, the rental application will be retained by the Department and evaluated for approval for next year.

Filing a rental application itself does not authorize diversion and use of water. In order to increase your chances of receiving an approved rental, it is imperative that rental applications are received early. The Department begins accepting rental applications beginning November 1 of the prior year. The later you wait to submit a rental application, the less likely it is we will have time to process the application by the requested start date or at all. Please for future filing please file your rental applications at an earlier time. Finally it is important that you understand that you are not authorized to divert any water for the purposes described in this application until you have paid the rental fee and you and the Department have both signed a rental agreement.

Additional information about the Bank may be found on the Department's website www.idwr.idaho.gov.

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Kris Margheim
