Re: Integrated Municipal Application Package (“IMAP”) / Transfer No. 89499 –
Response to communications from IDWR and Bryce Farris

Dear Cody:

I am writing on behalf of Veolia Water Idaho, Inc. We received this morning a copy of the letter that Bryce Farris sent to you today on behalf of Nampa Meridian Irrigation District and Settlers Irrigation District (collectively, “Districts”). That letter was in response to your letter of June 9, 2025 addressed to the Districts, the Boise Project Board of Control entities (“Boise Project”) and Veolia Water Idaho, Inc. (“Veolia”).

In Bryce’s letter:

1. The Districts agreed to the use of the standard APOD conditions (conditions 12 and 13 in IDWR’s June 9, 2025 draft approval for transfer of No. 63-11990).
2. The Districts offered substitute language for the conditions requiring Veolia to maintain records of water production and submit a revised gap analysis at the end of the planning horizon (conditions 6 and 7 in IDWR’s June 9, 2025 draft approval for transfer of No. 63-11990).

3. The Districts asked that the condition referencing the existence of side agreements including SUEZ's July 9, 2018 agreement Boise Project (condition 15 in IDWR's June 9, 2025 draft approval for transfer of No. 63-11990) be modified to also reference the *Stipulation for Withdrawal of Protests and Request to Change Status to Intervenor by Nampa & Meridian Irrigation District and Settlers Irrigation District* dated April 18, 2018.

I am authorized to state the Veolia does not object to the Districts' recommendations with respect to the three items above.

In closing, Veolia extends its appreciation to the Districts, Boise Project, and the Department for their assistance and cooperation in our collective efforts to overcome these hurdles to approval of the IMAP.

Sincerely,

Christopher H. Meyer
