Good Afternoon Bill,

I have reviewed the IDL lease contracts you submitted related to the Casa Del Norte Claims in Basins 37 & 61 on state lands.

Section 8.A, B, and E of Leases G700105 and G700149, and Article 10, 10.1 & 10.2 of Lease G700057 address water rights and water use associated with the leased premises. The claimants right to claim water rights appurtenant to the lease premises was waived through the contracts signed by the claimant. Therefore, the following list of claims and any other claims with a place of use on lands described under the aforementioned IDL lease contracts would be disallowed, due to no lawful appropriation.

To avoid the further expenditure of time and resources in this matter please sign, date and submit the attached withdrawal form to the SRBA court (at the address on the form attached). If the listed claims are not withdrawn, they will be recommended disallowed as described above. **Please note**, any forthcoming claims should be reviewed to exclude those for water use on state lands related to the aforementioned IDL leases. Please feel free to reach out with any additional information, questions, or concerns. Thank you for your time and attention on these matters.
