11. Other Water Rights Used:

None.

12. Remarks:

Priority Date Explanation:

This is the date given on the decree. This use continues to this day. Previous owners installed the pivot system to irrigate the current place of use around the early 2000's. The total irrigated acres has not changed.

This right does not grant any right-of-way or easement across the land of another.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

This right is limited to the irrigation of a specific 80.0 acres within the 200.0 acre place of use authorized by this right in a single irrigation season. The specific 80.0 acres to be irrigated by the right holder are shown in the electronic shape file associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 80.0 acres to be irrigated within the 200.0 acre place of use, the right holder shall

submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.

The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
