Comments: Water right 78-12502 overlaps permit no. 78-12525; however, water right 78-12502 is designated for a different use. Water right nos. 78-12334, and 78-7038 are identified in the same quarter-quarter section as Permit no. 78-12525, but these rights pertain to different properties.

2. Other water rights with the same point of diversion X No Overlap

Water Right No.	Source	Purpose of Use	Basis

E. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method: Because this permit can be licensed through an in-office exam, I did not calculate any estimates of flow per IDAPA Beneficial Use Examination Rules.

For Domestic use for one home, Administrator's Memorandum - Application Processing # 22 - "Definition of "Domestic"" recommends a maximum diversion rate of 0.04 cfs.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \text{I.R.}$$

$$V = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = \text{D.R.}$$

$$V = \text{Smaller of } V_{\text{I.R.}} \text{ and } V_{\text{D.R.}} =$$

2. Volume Calculations for Other Uses:

Comments: For Domestic use for one home when irrigation is included, Administrator's Memorandum - Application Processing # 22 - "Definition of "Domestic"" recommends an annual diversion volume of 1.2 AF

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in office exam because it is for domestic use for one home where the total diversion rate is less than 0.24 cfs. The exam was conducted on August 28, 2025 by Catalina Beck. At the time of the exam ownership of the permit is the name of Judy Carson Carroll and Kerry Carroll ("the permit holders"). The place of use (POU) boundaries for this permit were plotted based on the home's location in satellite imagery, which is offset from the parcel layer boundaries shown in the Department of Water Resource's GIS. The entire POU lies within Parcel No. RP009250000410 at 240 Old Pollock Rd, Pollock, ID, which Idaho County Records lists as owned by the permit holders. Kerry Carroll owns the land associated with both the POU and the point of diversion (POD). In the satellite imagery I used to evaluate the water use proposed for licensing, the home that established domestic use for this permit is clearly visible. The Statement of Completion for Submitting Proof of Beneficial Use ("Statement of Completion") was submitted on August 22, 2025.

I am recommending the standard diversion rate for domestic use as 0.04 cfs (Idaho Code §42-111) with an annual volume as 1.2 AF (Administrator's Memorandum - Application Processing # 22 - "Definition of "Domestic").

All the conditions of this permit have been met. Condition 046 will be dropped because the well has been completed and the permit holder submitted their statement of completion of beneficial use. Condition 004 will be dropped as there are no property concerns since permit holders own the POU and POD. All other conditions will be carried over to the license.
