ATTN: Water Right No. 65-24233

Dear Danial and Carla,

During a recent review of water rights it was recognized that the volume associated with the stockwater use on right 65-24233 had also incorrectly been recorded as a total volume. Given there is no volume associated with the irrigation use on this right, there should be no overall total volume recorded on the right.

To correct this issue, the total volume was removed in the records on the right. A copy of a water right report displaying the right before and after the change, with changes highlighted, is attached for your records. If you have any questions regarding this matter, please feel free to call the Western Regional Office at 208-334-2190.

Sincerely,

Scott Storms
Water Resources Supervisor
IDWR Western Regional Office
