11. Other Water Rights Used:

13-62,13-217,13-311, 13-7792.

12. Remarks:

Priority Date Explanation:

This is the decreed date.

This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

Approval of this transfer does not preclude the opportunity for review of the validity of this water right in the ongoing Bear River Basin Adjudication.

The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

Rights 13-62, 13-217, 13-7792, and 13-9542 when combined shall not exceed a total diversion rate of 1.14 cfs, a total annual maximum diversion volume of 218 af at the field headgate, and the irrigation of 57 acres.

Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 13A.

Diversion of water under this right is limited to the rate available under the priority of this right at the original point of diversion from Spring Creek, located in T15S, R39E, Section 36, SENE.

This right does not grant any right-of-way or easement across the land of another.

Use of this right is combined with water from Cub River Irrigation Company over the entire place of use for this right.

Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
