RE: Application for Transfer – Water Right 35-13782

Dear Mr. Carter,

In September 2024, you filed an application for transfer proposing to change the point of diversion and place of use for ground water right 35-13782. You also proposed to update the ownership records for the water right from Don Carter to your name.

You and I have spoken about the application and ownership change a couple of times. At its current place of use, water right 35-13782 is combined with water from Peoples Canal Company. Your application proposed to unstack the rights and use water right 35-13782 to irrigate new acres, while continuing to irrigate the current place of use with water from the canal. This raises concerns about enlargement. Further, as we investigated the ownership history for water right 35-13782, we discovered the Don Carter had sold a portion of the authorized place of use to Scott and Gloria Kirwan in 1995 without reserving water right 35-13782 from the sale. Based on taxlot records from Bingham County, it appears the remainder of the place of use for water right 35-13782 has been conveyed to Rueben and Sara Collier.

I agreed to hold your application and ownership change to allow you some time to consider your options and to reach out to Scott and Gloria Kirwan about water right 35-13782. It has been over a year since the application was filed, and we have not found a solution to the issues described above. I have decided to return your application and ownership change. The application and ownership change did not include any filing fees, so there is no money to be refunded. Feel free to contact me if you would like to pursue an application for transfer or ownership change in the future.

Sincerely,

James Cefalo
