Good afternoon Pamela,

Thank you for reaching out to notify us of the error made in our recommendation of CFPRBA claim no. 97-2057. As explained in my voicemail, the recommended diversion rate for 97-2057 has been revised to reflect the rate of the original water right license, 0.25 CFS. Please find the attached revised Preliminary Recommendation for that claim, and feel free to contact me if you have any further questions or concerns.

Best Regards,

~ Evan
