Re: Water Permit 96-16320

Dear Applicant:

This office received your Statement of Completion for Submitting Proof of Beneficial Use on 11/08/2024. Your permit qualifies for an in-office exam. This means that it doesn't necessitate a water right agent to be sent out to do a field exam and I can do the evaluation from my office. The aerial imagery tools that I have available to do my exam is not clear what is irrigated and what is not

Can you provide me with some additional information so that I can proceed with your application?

1. Photographs of irrigation and the irrigation system.

a. I provided you with a PDF of a map that you can markup outlining the POU – You can use this map to mark up the areas within your parcel boundaries that are being irrigated. Many people can use their phones or print out a copy to illustrate the irrigated areas then reply to this email with the map.

b. Alternatively, here is a link and instructions to use an online mapping tool: Applying for a Water Right? - Using the Draw tools layer on the right-hand side you can then draw an outline of the area that will be irrigated. If you have the "Show area Measurement" with Unit as "Acres" it will provide measurements with the drawing. Once you have the irrigated areas drawn, you can go to the Print tab and export it as a PDF then email me that.

Please let me know if you have any questions!

You can provide the information by mail to 322 E Front St Ste 648 PO BOX 83720 Boise ID 83720-0098 or email to file@idwr.idaho.gov.

Sincerely,

Catalina Beck

I also failed to mention in my previous email but I wanted to clarify the details concerning the water permit associated with 96-16320. Please note that the current permit is specifically designated for irrigation use only. This means that it does not extend to cover domestic water usage. To ensure that your domestic water needs are adequately protected, you will need to apply for a new water right that specifically addresses domestic use.

If you need any assistance in the application process or have further questions, please don't hesitate to reach out.

Best regards,

Good Morning James,

I am the water rights agent evaluating your Statement of Completion for Submitting Proof of Beneficial Use. To move on to the next stage of licensing for a water right, IDWR requires an exam to evaluate the extent of how beneficial use has been appropriated. Your permit qualifies for an in-office exam. This means that it doesn't necessitate a water right agent to be sent out to do a field exam and I can do the evaluation from my office. The aerial imagery tools that I have available to do my exam is not clear what is irrigated and what is not.
