Conditions of Approval

1. Rights 63-12113, 63-33130, 63-34599, and 63-34857 when combined shall not exceed a total diversion rate of 0.78 cfs.
2. This right shall be junior and subordinate to future water rights authorizing the diversion and use of water from the Boise River and its tributaries, including ground water, for consumptive uses, except that this right shall not be subordinate to future water rights for similar wildlife, recreation and/or aesthetic uses.
3. This right authorizes total annual storage volume of 120 acre-feet, 13.7 acre-feet to be used for the initial filling or carryover storage of the pond and 107 acre-feet for the replacement of losses caused by seepage and evaporation.
4. The two (2) ponds established by the storage of water under this right shall not exceed a total capacity of 13.7 acre-feet or a total surface area of 11.0 acres.

Water Right No. 63-34857

5. Any obstruction in the Boise River channel for diversion of water under this right must provide for watercraft and fish passage. The right holder must bypass sufficient flows in the Boise River at the point of diversion to accommodate watercraft navigation and fisheries values in the Boise River downstream of the diversion. The quantity of the bypass flow may be established in the future by the filing of a petition with the Department to establish the bypass flows and subsequent proceedings as described in the Department's Rules of Procedure.
6. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
7. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
8. Recreation and recreation storage use is for waterfowl viewing and hunting purposes. Recreation use under this right is for flow-through water and return-flow water associated with recreation storage.
9. Water diverted under the recreation flow component of this water right, minus evaporation and seepage losses, shall be returned to the Boise River.
10. This right does not authorize the diversion and use of water released from Lucky Peak Reservoir for stream flow maintenance purposes in connection with Water Right 63-3618.
11. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 12 day of December, 2025.

MEMORANDUM

TO Water Right 63-34857
FROM Cody Parker
RE Point of Diversion Overlap
DATE December 12, 2025

On December 4, 2025, Kate Englund and I completed a field examination for this permit. We measured the capacity of the diversion using the inline flow meter that had been installed. The pumping capacity was 0.78 cfs, which was also the recommended diversion rate for this license.

According to IDWR records there are five overlapping water rights that are authorized to use this POD.

WR No	Priority	Source	Owner	Rate	Volume	Acres
63-276A	05/01/1889	BOISE RIVER	COOK	0.08	NA	4.0
63-12113	04/25/1994	BOISE RIVER	RAMOS	0.12	18	4.0
63-34598	05/01/1889	BOISE RIVER	KIMURA	0.02	NA	1.0
63-34599	05/01/1889	BOISE RIVER	RAMOS	0.14	NA	7.2
63-33130	11/13/2008	WASTE WATER	RAMOS	0.20	45	14

The season of use for license 63-34857 will be 10/15 to 01/31, matching the season they flood the fields annually. The irrigation season for this area is 03/01 to 11/15. The two seasons overlap from 10/15 to 11/15.

Practically speaking, water right 63-34857 is the only water right diverted at this location when the fields are being flooded. Additionally, during the field exam the owner told us that 63-276A and 63-34598 no longer have access to this point of diversion. It seems the only combined limit that would be necessary is:

“Water rights 63-12213, 63-33130, 63-34599, and 63-34857 when combined shall not exceed a total diversion rate of 0.78 cfs.”

This condition includes only those water rights owned by Ramos and acknowledges that he is either irrigating or flooding the fields, but not both.

RE: License No. 63-34857

ISSUANCE OF LICENSE

Dear Water Right Holders:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed, please contact me at 208-605-4629.

Sincerely,

Susan E Hobson

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

RE: Field Examination for Water Right Permit No. 63-34857

Dear Permit Holder:

The Idaho Dept. of Water Resources plans to conduct a water right examination for your permit (listed above) **this season**. The examination is required to verify the water use you have developed and to issue a water right license.

Your permit authorizes 2.4 cfs and 590 afa for WILDLIFE STORAGE, WILDLIFE, RECREATION, RECREATION STORAGE, DIVERSION TO STORAGE. **Please contact me to schedule a field examination if you have developed a beneficial use of water and still own the land where water is used.**

If you did not develop a beneficial use of water under the permit during the beneficial use period, a license cannot be issued, and the permit should be relinquished. If a water use has been developed, but you have ceased using the water and have no interest in the permit, please relinquish the permit by submitting the enclosed form (no fee required).

Please contact me within the next thirty (30) days at 208-605-4629 to either schedule an examination or submit a relinquishment form. If you no longer own the property and/or do not respond to this letter, the Department will work with the current property owner to issue a license or void the permit.

Sincerely,

Cody Parker
Water Rights Supervisor
