

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

SEP 11 2025

WATER RESOURCES
WESTERN REGION

APPLICATION FOR TRANSFER OF WATER RIGHT

GENERAL INFORMATION AND INSTRUCTIONS

Pursuant to Section 42-222(1), *Idaho Code*, a transfer application may be filed to change the point of diversion, place of use, period of use, or nature of use of all or part of an established water right. Any person proposing to make such a change is required to file a transfer application with the Department. "Such application shall be upon forms furnished by the department and shall describe the [water right] to be changed and the changes which are proposed and shall be accompanied by the statutory filing fee." *Idaho Code* § 42-222(1).

The Department has developed this application form to assist applicants in satisfying the requirements of Section 42-222(1). This application form requests information about the applicant's authority to file (Part 1), information about the current elements of the water right(s) to be changed (Part 2), information about the proposed changes (Part 3), information about the validity of the water right(s) and the effects of the proposed changes (Part 4), and confirmation that the information provided is truthful (Part 5).

The applicant or their representative must provide a response for all applicable questions, any additional information required, and the proper filing fee before this application will be considered complete. If an application is incomplete or more information is required, the Department will notify the applicant or representative and allow time for the application to be completed. An application that remains incomplete will be returned to the applicant and the filing fee will be refunded.

An application for transfer is limited to the changes proposed for a single water distribution system. A proposal to change two or more separate water distribution systems, that will remain separate after the transfer, must be filed as separate applications. Applicants may provide additional pages to supplement their responses to the questions posed on this application form. Supplemental forms for listing additional water rights, points of diversion, or places of use can be found on the Department's website (idwr.idaho.gov). If you need assistance understanding the questions on this form, generating current water right reports, determining legal descriptions, or accessing water measurement records feel free to contact the nearest regional office of the Department.

PART 1 – CONTACT INFORMATION, OWNERSHIP RECORDS, AUTHORITY TO FILE

Name(s) of Applicant(s) Darling Ingredients, Inc.Mailing Address 5601 N. MacArthur Blvd. Irving, TX 75038Email* danielle.kurek@darlingii.com Phone _____Name of Representative (if any) Patrick KellyMailing Address 1620 S. Topaz Way, Suite 110 Meridian, ID 83642Email* pkelly@lsce.com Phone 208.954.4805

*If an email address is provided, Department staff will use email as the primary method for corresponding with the applicant and representative about the application.

A. Representative. If the representative is authorized to sign or amend the application on behalf of the applicant, attach documents confirming that authority. Label documents as Attachment 1A.

B. Current Owner. If the applicant is not the current owner of record for all water rights included in this application, attach documents showing that the applicant has the authority to make the proposed changes. Label documents as Attachment 1B.

C. Updating Ownership Records. Applicants needing to update the ownership records for any of the water rights included in this application must attach documents supporting the ownership change. Such documents must trace ownership of the subject water rights or the current place of use for the subject water rights from the current owner of record for the water rights to the applicant. Label documents as Attachment 1C.

D. Business Entities. If the applicant is a business entity (corporation, LLC, partnership, trust, etc.), is the entity currently registered with the Idaho Secretary of State?

☒ Yes. If this application is signed by someone other than a person listed on the most recent annual report filed with the Idaho Secretary of State, attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

☐ No. Attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

E. Approval of Irrigation Delivery Entity. Section 42-108, *Idaho Code*, states that a transfer application proposing to change water rights held by an irrigation company or district requires the consent of the irrigation entity. If this application proposes to change water rights held by an irrigation entity, attach a letter of consent from the entity (labeled as Attachment 1E) or have an authorized representative of the entity co-sign the application.

F. Encumbered Properties. If the current place of use for the water rights included in this application is subject to a lien, deed of trust, mortgage, or contract and the application proposes to change the nature of use of the water rights or to move water rights off the current place of use, attach a statement of consent for the change signed by the lien holder, trustee, mortgagor or contract holder. Label documents as Attachment 1F.

G. Legal Access. If the applicant is not the current owner of the proposed point(s) of diversion, conveyance system, or place(s) of use, provide evidence of legal access to the land or infrastructure not owned by the applicant. Label documents as Attachment 1G. For example, an applicant may provide a letter of consent from the owner of the land or conveyance system or may have the owner co-sign the application. For applications proposing to divert water on or convey water across federal land, an applicant is not required to demonstrate legal access to the federal land prior to approval. Instead, if the transfer application is approved, the applicant must obtain access authorization from the relevant federal agency prior to diverting water under the subject water rights.

PART 2 – WATER RIGHTS BEFORE PROPOSED CHANGES

A. Current Water Rights. For each water right proposed to be changed, attach a current water right report obtained from any Department office or from the Department's website (idwr.idaho.gov). Label water right reports as Attachment 2A.

B. Map of Current System. Attach a map of the current point(s) of diversion and place(s) of use for the water rights to be changed. The map should clearly depict the elements of the water rights to be changed. For example, if the application proposes to change the point of diversion for a water right, the map should display the current location of the point of diversion. For irrigation water rights, the map should also identify the location of the irrigated acres to be changed. Label map as Attachment 2B.

C. Current Location of Irrigated Acres. If this application proposes to change the place of use or nature of use for only a portion of an irrigation water right, use the following table to identify the current location of the irrigated acres to be changed. If additional pages are required, label additional pages as Attachment 2C. If this application proposes to change or rearrange the entire place of use for irrigation water right(s), skip to Part 3.

☐ **N/A.** This application does not propose to change the place of use or nature of use of an irrigation water right or this application proposes to change the place of use or nature of use for an entire irrigation right.

Current Location of Irrigated Acres to be Changed

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
01N	01E	12		3.3	35	14									2.4				54.7

Total Irrigated Acres to be Changed: 54.7

PART 3 – DESCRIPTION OF PROPOSED CHANGES

A. Purpose of Transfer. Section 42-222(1), *Idaho Code*, states that transfer applications may only be filed to change the point of diversion, place of use, period of use, or nature of use of an established water right. Section 42-248(3), *Idaho Code*, authorizes water right ownership changes to be described on a transfer application. Identify the changes proposed in this application:

- | | |
|---|---|
| ☐ Change point(s) of diversion | ☒ Change place of use |
| ☒ Add point(s) of diversion | ☐ Change period of use |
| ☐ Change nature of use | ☐ Update water right ownership records |

B. Proposed Changes. Describe the proposed changes in narrative form:

This transfer proposes to add 63-7980 and 63-12333 to a new well authorized under permit 63-35339. This addition will consolidate water sources for improved operational flexibility. The transfer also proposes to include a newly installed pivot irrigation system. This will allow the combined use of the rights at the new location, supporting more efficient water delivery.

C. Summary of Proposed Changes.

1. Water Rights. Use the following table to list all water rights, or portions thereof, that are proposed to be changed as they would appear after the proposed changes. In the Amount column, list the volume in acre-feet (af) for storage uses or the rate in cubic feet per second (cfs) for all other uses.

All or Part	Right Number	Amount (cfs/af)	Nature of Use	Period of Use	Source
☒ ☐	63-7980	0.03 cfs	Irrigation	03/01 to 11/15	Ground Water
☒ ☐	63-7980	0.33 cfs	Industrial	01/01 to 12/31	Ground Water
☒ ☐	63-7980	0.04 cfs	Domestic	01/01 to 12/31	Ground Water
☐ ☐				to	
☒ ☐	63-12333	0.80 cfs	Irrigation	03/01 to 11/15	Ground Water
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	

2. Total Amounts. Calculate the total quantity, in cfs or af, of water rights that are proposed to be changed through this application. For an application proposing to only change the place of use for irrigation rights, the total quantity of water is calculated by comparing the current place of use to the proposed place of use, summing the number of acres increased in each legal subdivision, and quantifying the proportional amount of diversion rate for the increased acres. For an application proposing to change or add points of diversion for irrigation or any other beneficial use, the total amount is the total diversion rate for the changed portion of the right.

Total Amount of Water Rights Proposed to be Changed: 1.23 cfs and/or _____ af.

3. Point(s) of Diversion. Use the following table to list all the proposed points of diversion for the water rights to be changed, including any current points of diversion that will continue to be used as part of the proposed water distribution system.

The legal description for the proposed point(s) of diversion must be to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System (PLSS). PLSS information is typically available from USGS topo maps, property deeds, tax bills or various mapping tools on the Department's website.

For points of diversion within platted subdivisions, list the lot and block number in the "Diversion Name/Number" column. An application proposing an injection into a stream and a re-diversion from that stream must list the source for the original diversion as the source for the injection and re-diversion points. If this application proposes construction of a new diversion structure (for example, a new ground water well or a new pump station on a creek), please indicate the status in the appropriate column.

Oct 08, 2025

DEPARTMENT OF
WATER RESOURCES☐ N/A. This application does not propose to add or change any points of diversion.**Proposed Points of Diversion**

New?	Twp	Rge	Sec	Lot	1/4	1/4	1/4	County	Source	Diversion Name/Number
Y	01N	01E	12			NW	NE	Ada	Ground Water	D0107715
N	01N	01E	12			NE	SE	Ada	Ground Water	
N	01N	01E	12			NE	SE	Ada	Ground Water	

4. Place of Use. The proposed place of use must be described to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System. Government lot numbers can be noted in parenthesis below the approximate quarter-quarter location of the government lot. For water rights held by irrigation districts, municipal providers or irrigation companies, the proposed place of use may be generally described as authorized by Sections 42-202B, 42-219 and 42-222B, *Idaho Code*.

☐ N/A. This application does not propose to change the place of use.**Proposed Place of Use**

Twp	Rge	Sec	NE ¼				NW ¼				SW ¼				SE ¼				Acre Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
01N	01E	12		26.6	35	14									2.4				78

Total Irrigated Acres: 78

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the

☐ N/A. This application does not propose to add or change any points of diversion.

Proposed Points of Diversion

Total Irrigated Acres: 78

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the

Department to evaluate the effects of the proposed change. The Department may deny an application if the applicant fails to provide sufficient data and information to determine whether the criteria from Section 42-222(1) are satisfied. In addition to the information requested in Parts 1-3 of this application, the following information must be provided for an application to be considered complete. Department staff may request additional information or clarification as the application is processed.

A. Validity of Water Rights

1. If one or more of the water rights proposed to be changed is a statutory claim, established pursuant to Section 42-248, *Idaho Code*, attach evidence supporting the priority date claimed. Label documents as Attachment 4A-1. For statutory claims, the Department may conduct a field inspection as part of the application review process to evaluate the water right elements listed on the statutory claim.

2. Has any portion of the water right(s) proposed to be changed undergone a period of five or more consecutive years of non-use?

☐ Yes. Attach a statement describing the portion of the right(s) that were not used and the length of time of the non-use. In addition, identify any exception or defense to forfeiture and provide a detailed description as to why the water rights have not been lost and forfeited for non-use. Label documents as Attachment 4A-2. Statutory exceptions or defenses to forfeiture are set forth in Section 42-223, *Idaho Code*.

☐ No.

B. Injury to Other Water Rights

1. Identify any other water right(s) diverted at the current point(s) of diversion.

All right identified in transfer

2. Identify any other water right(s) diverted at the proposed point(s) of diversion.

63-35339

3. Is the proposed point of diversion within a state water district? ☐ Yes. Water District # _____. ☒ No.

4. If already constructed and in use, are the proposed points of diversion equipped with Department-approved measuring devices? ☒ Yes. ☐ No.

5. If this application proposes to divert a surface water right from a ground water well, attach a technical analysis evaluating the hydraulic connection between the proposed ground water point of diversion and the source of water listed on the right to be changed. Label technical analysis as Attachment 4B-5.

6. If this application proposes changing the point of diversion for a ground water right in the Eastern Snake Plain Aquifer (ESPA), attach a technical analysis of the anticipated depletions to reaches of the Snake River that are hydraulically connected to the ESPA using the Department's current ground water model for the ESPA. The technical analysis must evaluate depletion impacts in a time-series format at transient and steady state time steps. To assist applicants in preparing the required technical analysis, the Department has developed a transfer tool interface for the ESPA model. The transfer tool and user instructions can be downloaded from the Department's website (idwr.idaho.gov). If the proposed and current points of diversion are in the same or adjacent model cells, no technical analysis is required, unless specifically requested by the Department. Label technical analysis as Attachment 4B-6.

C. Enlargement in Use

1. Identify any other water rights used at the current place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

Changes to City of Kuna municipal rights not proposed.

2. Identify any other water rights used at the proposed place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

Changes to City of Kuna municipal rights not proposed.

3. If this application proposes changing the place of use or nature of use for irrigation water rights, will the current place of use, for the portion of the right to be changed, continue to be irrigated?

☒ Yes. Identify the water right(s) to be used for the continued irrigation.
63-7980, 63-12333, and 63-35339

☐ No. The place of use for the portion to be changed will no longer be irrigated.

☐ N/A. The application does not propose to change the place of use for irrigation rights.

4. Unstacking Water Rights for Irrigation. If this application proposes to change the place of use for an irrigation water right that is combined with other irrigation rights at the current place of use but does not propose to change the place of use for all the stacked irrigation rights, attach evidence of the historical consumptive use occurring under all water rights at the current place of use. For irrigation rights, this should include at least five years of diversion data and/or crop data and estimates of evapotranspiration. Label the information as Attachment 4C-4. Evapotranspiration data may be available on the Department's website (<http://et-idwr.idaho.gov>)

5. If the application proposes to change the nature of use for a water right, attach evidence of the historical consumptive use occurring under the portion of the water right to be changed. For irrigation rights, this should include diversion data, crop data and estimates of evapotranspiration. Label the information as Attachment 4C-5. Evapotranspiration data may be available on the Department's website (<http://et-idwr.idaho.gov>)

6. If the application proposes to change the nature of use of a water right to municipal use for reasonably anticipated future needs, complete the form titled "Municipal Water Right Application Checklist" found on the Department's website (idwr.idaho.gov). Label the form as Attachment 4C-6.

7. To your knowledge, are any portions of the water rights proposed to be changed:

Yes No

☐ ☒

currently leased to the Water Supply Bank?

If yes, complete the form titled "Application for Transfer of Water Right Attachment WSB" found on the Department's website (idwr.idaho.gov). Label the Form as Attachment 4C-7.

☐ ☒

currently used in a mitigation plan limiting the use of water under the right?

☐ ☒

subject to an agreement not to divert (CREP)?

☐ ☒

currently enrolled in a federal set-aside program (CRP)?

D. Local Public Interest

The department must consider whether the proposed changes are in the local public interest as defined in Section 42-202B(3), *Idaho Code*. Some of the local public interest factors that may be considered in conjunction with a transfer application are (1) Recreation, fish, and wildlife impacts, (2) Water quality or contamination concerns, (3) Local and state ordinances, regulations, or policies related to water use, (4) Goals, requirements and limits set forth in the State Water Plan. If you choose to provide information about local public interest factors, label the information as Attachment 4D.

E. Conservation of Water Resources

Describe the diversion works and water delivery system. This may include sizes and dimensions of pumps, pipelines, headgates, ditches, dams, impoundments and irrigation equipment.

Groundwater is diverted through mainlines that serve industrial use to rendering plant.

Irrigation use is accomplished through pressurized pivot and sprinkler system.

PART 5 – FILING FEE AND SIGNATURE

A. Filing Fee. Filing fees for transfer applications are set forth in Section 42-221.O, *Idaho Code*. A table summarizing the filing fees for transfer applications is also found on the Department's website (idwr.idaho.gov). Any application proposing to change the nature of use for one or more rights requires an additional filing fee of \$250. Applications proposing to update the ownership records for water rights must also include the appropriate filing fee to update the ownership records. For any application relying on the filing fee set forth in Section 42-221.O.8, *Idaho Code*, attach a statement describing how the application qualifies under Section 42-221.O.8. Label documents as Attachment 5A.

B. Affidavit of Applicant or Representative:

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Conditions

Code Conditions

- X35 Rights 63-12333 and 63-7980 when combined shall not exceed the irrigation of 54.7 acres.
- R65 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
- 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
- 103 When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

Code Conditions

- C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
REINSTATED 8-28-1979.
- F02 Two points of diversion located in T1N, R1E S12, NESE
- S39 The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
- 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
- R69 This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
- T08 Failure of the right holder to comply with the conditions of Transfer 4979 is cause for the Director to rescind approval of the transfer.
- R19 The right holder shall maintain a totalizing measuring device of a type approved by the Department as a part of the diverting works.
- WB7 This right shall not exceed the total rate of diversion of 0.33 cfs and a total annual diversion volume of 238.9 af for the combined authorized uses.

Industrial use is for a rendering plant and includes land application of resulting wastewater to comply with water quality requirements.

**NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 90026**

MIDDLETON MILL DITCH CO, PO BOX 848, MIDDLETON, ID 83644-0214 has filed Application No. 90026 for changes to the following water right within ADA County: Right No. 63-125G. The purpose of the transfer is to change a portion of the above right as follows:

to change the nature of use of 0.7 acres of irrigation to diversion to storage and aesthetic storage to provide mitigation for evaporative losses for an excavated pond proposed under Water Right Application 63-35749. The 0.7 acre to be changed is located in the SESW of Sec. 11, T04N, R01W.

TRANSFER NO. 90059

DARLING INGREDIENTS INC, 5601 N MACARTHUR BLVD, IRVING, TX 75038-2616 has filed Application No. 90059 for changes to the following water rights within ADA County: Right Nos. 63-7980, 63-12333. The purpose of the transfer is to change a portion of the above rights as follows:

to add a new point of diversion from ground water located in Section 12, T01N, R01E and change the place of use for the domestic and industrial portion of the water rights and create a 78.0 acre permissible place of use for the irrigation portion of the rights.

TRANSFER NO. 90071

VEOLIA WATER IDAHO INC, 8248 W VICTORY RD, BOISE, ID 83709-4165 has filed Application No. 90071 for changes to the following water rights within ADA County: Right Nos. 63-2915, 63-3239, 63-7066, 63-31856, 63-31857. The purpose of the transfer is to change a portion of the above rights as follows:

to add two points of diversion from ground water to five water rights as part of a common system. Total diversion rate authorized by the rights will remain at 15.2 cfs. Water will be used in the current municipal place of use.

TRANSFER NO. 90122

MACE-CATLIN MUTUAL DITCH COMPANY, C/O MEL CARLSON, 2033 MACE RD, EAGLE, ID 83616-5715 has filed Application No. 90122 for changes to the following water right within ADA County: Right No. 63-33067. The purpose of the transfer is to change a portion of the above right as follows:

to change the nature of use of a portion of the water right to provide mitigation for the consumptive uses associated with a proposed pond under Water Right Application 63-35756.

For additional information concerning the property locations, contact the Western Region office at (208)334-2190; or to see a full description of these rights and the proposed transfers, please see <https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers>. Protests may be submitted based on the criteria of Idaho Code § 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Western Region, 2735 W AIRPORT WAY, BOISE ID 83705-5082 together with a protest fee of \$25.00 for each application on or before 1/5/2026. The protestant must also send a copy of the protest to the applicant.

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Hello Marcelina,

Thanks for the phone call. Looking into 63-7980 backfile:

- License issued in 1974 with 1 POD (applied for and issued in SENE).
- Adjudication claim filed in 1996 with one POD in SE NE.
- Transfer 4979 was signed in 1997 with 1 POD (move to NESE). Pam's transfer memo describes "correcting the existing well". But the transfer did not ADD a well.
- 1998 drill log under drill permit 63-97-W869-200 for well in NESE.
- Claim recommendation in 2005 notes says there are 2 wells noted in the field exam and correct description via transfer. But looking at the field exam, the system diagram and description only shows 1 10" well. Other notes describe a second "emergency" well was drilled in late 70's.
- Looks like second well was added to record via decree in 2007.

After confirming with the owner, there are actually 2 wells in the NESE. I have included an amended page 5 and map to the transfer app to identify all the wells on the property. Please let me know if you need anything further.

Best,
Patrick

Subject: Darling Ingredients Application for Transfer

Dear Nick,

On behalf of Darling Ingredients, Inc., LSCE is pleased to submit the enclosed application for transfer of water rights. This application requests modification of water rights 63-7980 and 63-12333, with the primary objectives of adding a point of diversion and updating the place of use. The application has been signed by Mr. Elrod, Vice President of Darling Ingredients, Inc., as recorded with the Office of the Secretary of State.

Permit 63-35339 authorizes the drilling of a new irrigation well. Through this transfer, the company proposes to consolidate existing industrial water rights with the new well and expand the authorized place of use to incorporate the new pivot system described in the permit.

An application fee of \$580 is included. We appreciate your attention to this matter and welcome any questions or requests for additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Kelly", is written over the printed name.

Patrick Kelly
Project Hydrogeologist
