APPLICATION FOR TRANSFER OF WATER RIGHT

GENERAL INFORMATION AND INSTRUCTIONS

Pursuant to Section 42-222(1), *Idaho Code*, a transfer application may be filed to change the point of diversion, place of use, period of use, or nature of use of all or part of an established water right. Any person proposing to make such a change is required to file a transfer application with the Department. "Such application shall be upon forms furnished by the department and shall describe the [water right] to be changed and the changes which are proposed and shall be accompanied by the statutory filing fee." *Idaho Code* § 42-222(1).

The Department has developed this application form to assist applicants in satisfying the requirements of Section 42-222(1). This application form requests information about the applicant's authority to file (Part 1), information about the current elements of the water right(s) to be changed (Part 2), information about the proposed changes (Part 3), information about the validity of the water right(s) and the effects of the proposed changes (Part 4), and confirmation that the information provided is truthful (Part 5).

The applicant or their representative must provide a response for all applicable questions, any additional information required, and the proper filing fee before this application will be considered complete. If an application is incomplete or more information is required, the Department will notify the applicant or representative and allow time for the application to be completed. An application that remains incomplete will be returned to the applicant and the filing fee will be refunded.

An application for transfer is limited to the changes proposed for a single water distribution system. A proposal to change two or more separate water distribution systems, that will remain separate after the transfer, must be filed as separate applications. Applicants may provide additional pages to supplement their responses to the questions posed on this application form. Supplemental forms for listing additional water rights, points of diversion, or places of use can be found on the Department's website (idwr.idaho.gov). If you need assistance understanding the questions on this form, generating current water right reports, determining legal descriptions, or accessing water measurement records feel free to contact the nearest regional office of the Department.

A. Representative. If the representative is authorized to sign or amend the application on behalf of the applicant, attach documents confirming that authority. Label documents as Attachment 1A.

B. Current Owner. If the applicant is not the current owner of record for all water rights included in this application, attach documents showing that the applicant has the authority to make the proposed changes. Label documents as Attachment 1B.

C. Updating Ownership Records. Applicants needing to update the ownership records for any of the water rights included in this application must attach documents supporting the ownership change. Such documents must trace ownership of the subject water rights or the current place of use for the subject water rights from the current owner of record for the water rights to the applicant. Label documents as Attachment 1C.

D. Business Entities. If the applicant is a business entity (corporation, LLC, partnership, trust, etc.), is the entity currently registered with the Idaho Secretary of State?

☐ Yes. If this application is signed by someone other than a person listed on the most recent annual report filed with the Idaho Secretary of State, attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

☒ No. Attach documents confirming the authority of the signer to sign on behalf of the business entity. Label documents as Attachment 1D.

E. Approval of Irrigation Delivery Entity. Section 42-108, *Idaho Code*, states that a transfer application proposing to change water rights held by an irrigation company or district requires the consent of the irrigation entity. If this application proposes to change water rights held by an irrigation entity, attach a letter of consent from the entity (labeled as Attachment 1E) or have an authorized representative of the entity co-sign the application.

F. Encumbered Properties. If the current place of use for the water rights included in this application is subject to a lien, deed of trust, mortgage, or contract and the application proposes to change the nature of use of the water rights or to move water rights off the current place of use, attach a statement of consent for the change signed by the lien holder, trustee, mortgagor or contract holder. Label documents as Attachment 1F.

G. Legal Access. If the applicant is not the current owner of the proposed point(s) of diversion, conveyance system, or place(s) of use, provide evidence of legal access to the land or infrastructure not owned by the applicant. Label documents as Attachment 1G. For example, an applicant may provide a letter of consent from the owner of the land or conveyance system or may have the owner co-sign the application. For applications proposing to divert water on or convey water across federal land, an applicant is not required to demonstrate legal access to the federal land prior to approval. Instead, if the transfer application is approved, the applicant must obtain access authorization from the relevant federal agency prior to diverting water under the subject water rights.

PART 2 – WATER RIGHTS BEFORE PROPOSED CHANGES

A. Current Water Rights. For each water right proposed to be changed, attach a current water right report obtained from any Department office or from the Department's website (idwr.idaho.gov). Label water right reports as Attachment 2A.

B. Map of Current System. Attach a map of the current point(s) of diversion and place(s) of use for the water rights to be changed. The map should clearly depict the elements of the water rights to be changed. For example, if the application proposes to change the point of diversion for a water right, the map should display the current location of the point of diversion. For irrigation water rights, the map should also identify the location of the irrigated acres to be changed. Label map as Attachment 2B.

If additional pages are required, label additional pages as Attachment 2C. If this application proposes to change or rearrange the entire place of use for irrigation water right(s), skip to Part 3.

☐ **N/A.** This application does not propose to change the place of use or nature of use of an irrigation water right or this application proposes to change the place of use or nature of use for an entire irrigation right.

PART 3 – DESCRIPTION OF PROPOSED CHANGES

A. Purpose of Transfer. Section 42-222(1), *Idaho Code*, states that transfer applications may only be filed to change the point of diversion, place of use, period of use, or nature of use of an established water right. Section 42-248(3), *Idaho Code*, authorizes water right ownership changes to be described on a transfer application. Identify the changes proposed in this application:

- | | |
|--|---|
| ☒ Change point(s) of diversion | ☒ Change place of use |
| ☐ Add point(s) of diversion | ☐ Change period of use |
| ☐ Change nature of use | ☐ Update water right ownership records |

B. Proposed Changes. Describe the proposed changes in narrative form:

Applicant seeks to transfer remaining portion of Bellevue Farms Landowners Assn's water rights 37-21863, 37-21880, 37-21897, 37-21914, 37-21931 and 37-21976 to applicants property. Applicant previously transferred portions of same rights under approved IDWR transfer no. 89217 dated March 19th 2025.

C. Summary of Proposed Changes.

1. Water Rights. Use the following table to list all water rights, or portions thereof, that are proposed to be changed as they would appear after the proposed changes. In the Amount column, list the volume in acre-feet (af) for storage uses or the rate in cubic feet per second (cfs) for all other uses.

All or Part	Right Number	Amount (cfs/af)	Nature of Use	Period of Use	Source
☒ ☐	37-21863	0.093 cfs	Irrigation	04/15 to 10/31	Big Wood River
☒ ☐	37-21880	0.001 cfs	Irrigation	04/15 to 10/31	Big Wood River
☒ ☐	37-21897	0.008 cfs	Irrigation	04/15 to 10/31	Big Wood River
☒ ☐	37-21914	0.001 cfs	Irrigation	04/15 to 10/31	Big Wood River

☐ ☐				to	
☐ ☐				to	
☐ ☐				to	
☐ ☐				to	

2. Total Amounts. Calculate the total quantity, in cfs or af, of water rights that are proposed to be changed through this application. For an application proposing to only change the place of use for irrigation rights, the total quantity of water is calculated by comparing the current place of use to the proposed place of use, summing the number of acres increased in each legal subdivision, and quantifying the proportional amount of diversion rate for the increased acres. For an application proposing to change or add points of diversion for irrigation or any other beneficial use, the total amount is the total diversion rate for the changed portion of the right.

Total Amount of Water Rights Proposed to be Changed: 0.588 cfs and/or 54.6 af.

3. Point(s) of Diversion. Use the following table to list all the proposed points of diversion for the water rights to be changed, including any current points of diversion that will continue to be used as part of the proposed water distribution system.

The legal description for the proposed point(s) of diversion must be to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System (PLSS). PLSS information is typically available from USGS topo maps, property deeds, tax bills or various mapping tools on the Department's website.

For points of diversion within platted subdivisions, list the lot and block number in the "Diversion Name/Number" column. An application proposing an injection into a stream and a re-diversion from that stream must list the source for the original diversion as the source for the injection and re-diversion points. If this application proposes construction of a new diversion structure (for example, a new ground water well or a new pump station on a creek), please indicate the status in the appropriate column.

☐ N/A. This application does not propose to add or change any points of diversion.

4. Place of Use. The proposed place of use must be described to the nearest 40-acre subdivision (QQ) or U.S. Government Lot of the Public Land Survey System. Government lot numbers can be noted in parenthesis below the approximate quarter-quarter location of the government lot. For water rights held by irrigation districts, municipal providers or irrigation companies, the proposed place of use may be generally described as authorized by Sections 42-202B, 42-219 and 42-222B, *Idaho Code*.

☐ N/A. This application does not propose to change the place of use.

*PPU= 76.5 acres, Irrigation limited to 18.7 total acres.

5. Map of Proposed System. Attach a map showing the location of the points of diversion, reservoirs, dams, canals, ditches, pipelines and other works proposed to divert and convey water. Also show the location of the place of use, including any lands to be irrigated. The map should delineate the legal subdivisions including townships, ranges, sections, quarter-quarters and government lots. Label map as Attachment 3C.

PART 4 – ADDITIONAL INFORMATION

Section 42-222(1), *Idaho Code*, establishes the criteria used to evaluate transfer applications. An applicant bears the burden of demonstrating that the water right to be changed is a valid right, that the proposed use is a beneficial use, and that the proposed changes will not injure other water rights, will not enlarge the use of the original rights, are in the local public interest, and are consistent with the conservation of water resources within the state of Idaho. To satisfy this burden, an applicant must provide sufficient data and information for the

Department to evaluate the effects of the proposed change. The Department may deny an application if the applicant fails to provide sufficient data and information to determine whether the criteria from Section 42-222(1) are satisfied. In addition to the information requested in Parts 1-3 of this application, the following information must be provided for an application to be considered complete. Department staff may request additional information or clarification as the application is processed.

A. Validity of Water Rights

1. If one or more of the water rights proposed to be changed is a statutory claim, established pursuant to Section 42-248, *Idaho Code*, attach evidence supporting the priority date claimed. Label documents as Attachment 4A-1. For statutory claims, the Department may conduct a field inspection as part of the application review process to evaluate the water right elements listed on the statutory claim.

2. Has any portion of the water right(s) proposed to be changed undergone a period of five or more consecutive years of non-use?

☐ Yes. Attach a statement describing the portion of the right(s) that were not used and the length of time of the non-use. In addition, identify any exception or defense to forfeiture and provide a detailed description as to why the water rights have not been lost and forfeited for non-use. Label documents as Attachment 4A-2. Statutory exceptions or defenses to forfeiture are set forth in Section 42-223, *Idaho Code*.

☒ No.

B. Injury to Other Water Rights

1. Identify any other water right(s) diverted at the current point(s) of diversion.

NONE.

2. Identify any other water right(s) diverted at the proposed point(s) of diversion.

37-510A, 37-685D, 37-21842, 37-21849, 37-21866, 37-21883, 37-21900, 37-21917.

37-23596, 37-23597, 37-23598, 37-23599, 37-23600, 37-23601.

3. Is the proposed point of diversion within a state water district? ☒ Yes. Water District # 37. ☐ No.

4. If already constructed and in use, are the proposed points of diversion equipped with Department-approved measuring devices? ☒ Yes. ☐ No.

5. If this application proposes to divert a surface water right from a ground water well, attach a technical analysis evaluating the hydraulic connection between the proposed ground water point of diversion and the source of water listed on the right to be changed. Label technical analysis as Attachment 4B-5.

6. If this application proposes changing the point of diversion for a ground water right in the Eastern Snake Plain Aquifer (ESPA), attach a technical analysis of the anticipated depletions to reaches of the Snake River that are hydraulically connected to the ESPA using the Department's current ground water model for the ESPA. The technical analysis must evaluate depletion impacts in a time-series format at transient and steady state time steps. To assist applicants in preparing the required technical analysis, the Department has developed a transfer tool interface for the ESPA model. The transfer tool and user instructions can be downloaded from the Department's website (idwr.idaho.gov). If the proposed and current points of diversion are in the same or adjacent model cells, no technical analysis is required, unless specifically requested by the Department. Label technical analysis as Attachment 4B-6.

C. Enlargement in Use

1. Identify any other water rights used at the current place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

37-510A, 37-685D, 37-21842, 37-21849, 37-21866, 37-21883, 37-21900, 37-21917.

2. Identify any other water rights used at the proposed place of use, including the number of shares in a canal company or acres assessed by an irrigation district.

N/A.

3. If this application proposes changing the place of use or nature of use for irrigation water rights, will the current place of use, for the portion of the right to be changed, continue to be irrigated?

☐ Yes. Identify the water right(s) to be used for the continued irrigation.

☒ No. The place of use for the portion to be changed will no longer be irrigated.

The Member shall not have any right to demand or receive the return of its Capital Contribution or to receive any distributions from the Company except as specifically provided in this Agreement. The Capital Contributions of the Member shall be returned to it only in the manner and to the extent provided in this Agreement and, except as provided herein, the Member has no right to receive any distribution which includes a return of any portion of the Member's Capital Contribution. The Member shall not be entitled to demand to receive property other than cash in return for its Capital Contribution.

3.04. Loans by the Member. From time to time, the Member may make loans to the Company or advance money on its behalf (but only to the extent required by the business of the Company, as determined by the Member). Loans shall bear interest at a rate to be determined by the Member. Loans by the Member shall not be considered contributions to the capital of the Company and shall not increase the Capital Account of the Member. Any such assignment shall not dissolve the

Company, nor shall it entitle the assignee to participate in the management of the affairs of the Company or to exercise any of the rights or powers of a Member.

5.03. Limitation on Transfer and Assignments. Notwithstanding anything in this Agreement to the contrary, no Transfer or assignment of an Interest shall be valid or effective if, in the opinion of counsel to the Company (the cost of which shall be borne by the transferor), any such transfer or assignment would result in (i) the Company being classified as an association taxable as a corporation for Federal income tax purposes, or (ii) a violation of any applicable Federal or state securities or other laws or regulations. Any Transfer or assignment shall be effected in such manner as shall, in the opinion of counsel to the Company, be necessary to maintain the continued classification of the Company as an entity that is not an association taxable as a corporation for Federal income tax purposes and compliance with all applicable laws and regulations.

ARTICLE VI

Management Rights and Duties of the Member

6.01. Management Rights. The Member shall have exclusive and complete discretion, power and authority to manage, administer and operate the business and affairs of the Company. The Member may delegate any portion or all of such power by appointing such officers, utilizing such titles, including president and vice president, as the Member in its sole and absolute discretion determines. Officers need not be members of the Company. Any such officers shall have all authority delegated to them by the Member, including, without limitation, authority to sign all documents on behalf of the Company, including any and all documents filed with the Federal Aviation Administration.

6.02. Management Powers.

(a) The Member shall take such action as it deems necessary to provide for and supervise the operation of the Company for the purposes set forth in Section 2.01. The Member shall devote so much of its time to the affairs of the Company as in its judgment the conduct of the business shall reasonably require, and the Member shall not be obligated to do or perform any act or thing in connection with the business of the Company not expressly set forth herein.

(b) Without limiting the generality of Section 2.01 or Section 6.01, the Member shall have the power and authority to:

- (i) deal in any assets, whether personal property or real property;
- (ii) sell, lease, exchange or convey title to, and grant options for the sale of, all

or any portion of the Company's property;

(iii) incur all expenditures permitted by this Agreement and reimburse itself from the Company's funds for any reasonable and necessary expenses incurred by it in furtherance of its duties hereunder;

(iv) employ and dismiss from employment any and all employees, agents, independent contractors, attorneys, accountants, managing agents and consultants on behalf of the Company, provided that such services are necessary or advisable and the compensation therefor is reasonable;

(v) obtain loans, secured or unsecured, and lease financing for the Company, whether from the Member or from an unrelated lender, and secure the same by mortgaging, assigning for security purposes, granting a security interest in, pledging or otherwise hypothecating all or any part of the Company's property;

(vi) bring or defend, pay, collect, compromise, arbitrate, resort to legal action, or otherwise adjust claims or demands of or against the Company;

(vii) enter into, perform and carry out any and all contracts and agreements of every kind necessary or incidental to the accomplishment of the Company's business;

(viii) acquire and enter into any contracts of insurance of such types and in such amounts as the Member deems necessary and proper for the protection of the Company or for any purpose beneficial to the Company, including, but not limited to, in connection with its indemnification obligations hereunder; and

(ix) take such other action as may in the Member's discretion be necessary or desirable in connection with the proper management of the business and affairs of the Company.

6.03. Limitation on Liability of the Member.

(a) The liability of the Member to the Company shall be limited to the amount of its agreed Capital Contribution, and the Member shall have no further liability to contribute money to, or in respect of, the liabilities, losses or obligations of the Company, nor shall the Member be liable for any obligations of the Company. The Member shall have no obligation to the Company or to any other person to restore any negative balance in its Capital Account by payment to the Company or otherwise.

(b) Neither the Member nor any officer of the Company shall be liable, responsible or accountable in damages or otherwise to the Company or any other person for any act performed or omitted to be performed by the Member or such officer and reasonably believed

by the Member or such officer to be within the scope of the authority granted hereby, except in the case of gross negligence, willful misconduct or fraud. Notwithstanding anything herein to the contrary, the provisions of this Section 6.03 shall not be construed so as to relieve or attempt to relieve the Member or such officer of any liability to the extent (but only to the extent) that such liability may not be waived, modified or limited under applicable law; instead, such provisions shall be construed so as to effectuate the provisions of this Section 6.03 to the fullest extent permitted by law.

(c) The Member and each officer shall be fully protected in relying in good faith upon the records of the Company and upon such information, opinions, reports or statements presented to the Company by any of its managers, members, officers, employees or committees, or by any other person, as to matters which the Member or such officer reasonably believes are within such other person's professional or expert competence and who has been selected with reasonable care by or on behalf of the Company, including information, opinions, reports or statements as to the value and amount of the assets, liabilities, profits or losses of the Company or any other facts pertinent to the existence and amount of assets from which distributions to the members might properly be paid.

6.04 Indemnification. The Company shall indemnify and hold the Member and each officer harmless from any loss, damage, liability, cost or expense, including reasonable attorneys' fees, incurred by the Member or such officer arising out of any act or failure to act of the Member or such officer and incurred in a proceeding to which the Member or such officer is a party because it is or was a Member or an officer, so long as such act or failure to act is not attributable to the Member's or such officer's gross negligence, willful misconduct or fraud.

6.05. Right to Rely on Authority of the Member. In no event shall any person dealing with the Member or any officer with respect to any business or affairs of the Company be obligated to ascertain that the terms of this Agreement have been complied with or to inquire into the necessity or expediency of any act or action of the Member or such officer. Every contract, agreement, deed, mortgage, deed of trust, promissory note or other instrument or document executed by the Member or any officer with respect to any property or business of the Company shall be conclusive evidence in favor of each and every person relying thereon or claiming thereunder that (i) at the time of the execution and/or delivery of such instrument or document, this Agreement was in full force and effect, (ii) such instrument or document was duly executed in accordance with the terms and provisions of this Agreement and is binding upon the Company, and (iii) the Member or such officer was duly authorized and empowered to execute and deliver such instrument or document for and on behalf of the Company.

ARTICLE VII

The Member also shall be furnished with a statement showing the distributions made to the Member pursuant to Article IV of this Agreement during or in respect of such Fiscal Year.

(b) As soon as reasonably practicable after the end of each Fiscal Year, but in no event later than July 1 of the next succeeding year, the Member shall be furnished with such information as shall be necessary for the preparation of its Federal, state and local income and other tax returns for that Fiscal Year.

ARTICLE VIII

Dissolution

8.01. Dissolution of Company.

(a) The Company shall be dissolved, and its assets liquidated pursuant to Section 8.02, upon any of the following events: (i) the written consent of the Member; (ii) the sale, assignment or other disposition of all or substantially all of the assets of the Company, provided, however, that in the event that the Company receives notes or other evidences of indebtedness in consideration of any such sale, assignment or other disposition, the Company shall not terminate under this clause until such notes or evidences of indebtedness have been paid in full or otherwise disposed of by the Company; or (iii) an Involuntary Withdrawal, unless the Member's legal representative or other successor-in-interest acts to become a Member as provided in the Act.

(b) For purposes of this Agreement, the term "Bankruptcy" means (i) the Member makes an assignment for the benefit of creditors, files a petition in bankruptcy, or is adjudicated a bankrupt or insolvent, or files any petition or answer seeking for itself any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under any present or future statute, law or regulation, or files any answer admitting (or fails to contest) the material allegations of a petition filed against the Member in any proceeding of this nature, or seeks or consents to or acquiesces in the judicial appointment of a trustee, receiver, or liquidator of the Member or of all or any substantial part of its properties; or (ii) within 60 days after the commencement of any proceeding against the Member seeking reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under any present or future statute, law or regulation, such proceeding has not been dismissed or all orders or proceedings thereunder affecting the operations or the business of the Member stayed, or if the stay of any such order or proceeding thereafter shall be set aside, or if, within 60 days after the judicial appointment without the consent or acquiescence of any trustee, receiver or liquidator of the Member or of all or any substantial part of its properties, the appointment is not vacated or stayed, or within 60 days after the expiration of any stay, the appointment is not vacated.

8.02. Liquidation of Assets.

(a) The winding-up of the Company's affairs and the liquidation and distribution of its assets shall be conducted exclusively by the Member or, in the event that the Member is unable or unwilling to act, by a liquidating trustee named by the Member (in either case, the "Liquidator"). The Liquidator is hereby authorized to do any and all acts and things authorized by law to effect such winding-up, dissolution, liquidation and distribution of the

assets of the Company, including, without limitation, those set forth in Section 8.02(b) and Section 8.02(c).

(b) Upon dissolution of the Company, the assets of the Company, other than those assets that the Liquidator determines shall be distributed in kind, shall be liquidated as promptly as possible, but in an orderly and businesslike manner so as not to involve undue sacrifice. Good Afternoon Bill,

Phill just came to talk with me about your email and the lease application for Bellevue farms. The lease contract 2008 is still under review and has not been finalized. After requesting some additional information to finish processing I had some back and forth with Phil VanDerhoef who is representing Bellevue farms and he told me that they were planning to withdraw the application but I have been waiting for that for some time. I just tried to follow up with him on that, if I do not hear back from him by Tuesday I will begin the process of returning the application.

I will keep you updated on the status.

Thanks,

Aaron

Phil,
Corey and I weren't sure who to send this to, so by default we decided to send it to you.

Flying Squirrel Productions LLC has submitted a transfer application for water rights 37-21863, 37-21880, 37-21897, 37-21914, 37-21931 and 37-21976 (currently owned by Bellevue Farms Landowners Assn), which are leased to the water supply bank (Lease ID: 2008) until 12/31/2029. I have attached a copy of an email that I forwarded to the applicant's representative at his request, to present to the current owners of the water rights to hopefully convince them to withdraw the rights from the bank. The transfer is seeking to move the rights to a new POU for a proposed subdivision and add a new and an existing well to water right 37-21976.

I am planning on submitting them for advertising next week.

Sincerely,

Dear Corey,

Enclosed is a water right transfer application filed in the name of Flying Squirrel Productions LLC (Applicant), involving five Big Wood River irrigation water rights and one ground water irrigation right currently authorized to irrigate 18.7 and 15.6 acres respectively within the Bellevue Farms Subdivision south of Bellevue, ID.
