Good afternoon,

IDWR is currently processing your Application for Permit, and everything looks good overall. However, there is one small amendment needed. On page 2, Section 8, Part D—which asks for the number of households—the field was left blank. This section does require a number. In your case, the correct entry would be 1.

To correct this, you can simply send an email or written statement confirming that you, as the property owner(s), state there is only one home on the property. This will satisfy the requirement and allow us to continue processing your application without delay.

If you have any questions, please feel free to reach out.

Sincerely,
