**RE: RETURNED APPLICATION(S) TO LEASE WATER RIGHT NO(S). 61-12042 TO THE
WATER SUPPLY BANK**

Dear Applicant:

The Department of Water Resources (Department) is returning your application(s) to lease water right(s) to the Water Supply Bank (Bank). A letter was sent to you on July 11, 2024, requesting additional information. As of the date of this letter, no information has been received therefore, the Department cannot accept water right(s) 61-12042 into the Bank.

This letter is notice that the attached application(s) to lease water to the Bank are being returned. The Bank rules provide criteria to be considered when determining whether to accept a water right into the Bank. One of the criteria for consideration is information that the water right has not been lost through non-use. The Department needs information that the water right has been put to beneficial use in the last 5 years.

You may re-file your lease application(s) with the requested information before December 31, 2024 to have your right in the Bank for the 2024 season. A refund of \$250 has been requested and will be sent to you under separate cover from the Idaho State Controller's office.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have any questions, please contact the Department at (208) 287-4800.

Sincerely,

Jean Hersley

To Whom It May Concern,

I am in need of assistance with the attached request as I am unfamiliar with the rules, etc., that pertain to water rights.

I am submitting this request to place 4 acres of my water rights into the water bank. The application form requests proof that I have not forfeited my rights. I am currently in the process of clearing the land of lava rocks and sagebrush (see attached photos.) I am performing these tasks on my own and therefore, it is taking me some time to accomplish it, hence my request to place the rights in the bank for the next 5 years. The remaining water rights will continue to water my front pastures as I have installed in-ground sprinklers and am continuously attempting to grow pasture for my horses.

Please contact me with questions, if any, regarding the approval of this request.

Thank you,

Karen F. Tucker

Good Morning

I apologize. I inadvertently put the incorrect Water Right number on the application (61-2168). That was the right number prior to it being transferred to me. I own the two mentioned in your email, 61-12042 and 61-2168.

I did not know the rights were stacked and still don't understand exactly what that means. If they are stacked, does that mean I would have to put the entire 8.4 acres into the water bank or will I still be able to only put 4 acres into the bank for lease? I want to continue to utilize the remaining water to irrigate my front pastures as shown on the map that I attached to my application.

In addition, you stated that I would have to send an additional \$200 per right, but go on to say that stacked water rights qualify for the multiple fee payment of \$500. If I have already sent you \$250, wouldn't I then only owe another \$250 for the other right, for a total of \$500?

Also, will I need to submit a new application with the correct water right number or can the number just be corrected on the application?

I feel frustrated with this process because I don't understand it.

Thank you for your assistance.

Good Afternoon Karen,

I am working on intaking your water supply bank lease , however I am looking at the water right 61-2168 that is on the application and it is not pulling up and the map is different from what you sent with the application. I did notice that you own two water rights 61-12042 and 61-12046 did you mean to add those to the water bank ? if so you will need to do amended application and add those two water rights. We can put the fee towards the new application if you want to put both water rights in the bank you need to pay another 200 per right. *Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.* I also noticed the water right 61-12046 is an enlargement of right 61-12042 so you need to fill out D and E on the application since the water right is stacking. I have attached two maps one showing 61-12042 and 61-2168 .

Let me know if you have any questions.
