4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
22-7680A	Irrigation	1.31	272	92.9		0.05	9.2	2.30
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.05	9.2	2.30
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 22-7680A AGREEMENT 860**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$28.90 **per year** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 14.3 acre-feet. The annual rental fee for 2025 is due by December 31, 2024. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$328.90 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, 90% or \$296.61 of the rental fee will be paid to the lessor(s) and 10% or \$32.89 will be retained by the Department to offset administrative costs for **2024**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Rental application #2916 was submitted by The Church of Jesus Christ of Latter-day Saints and was received by the Department on January 26, 2024. The application requests to rent 2.3 acres from right 22-7680A for the irrigation of a ballfield which has no existing water rights. This rental is for the same acres related to enforcement action E2021-1716.

This rental is within Water District #120 and the ESPA GWMA.
The lease is within Water District #100, the ESPA GWMA, and the Madison GWD.

AUTHORITY TO FILE: The application was signed by Jonathan M. Clegg. A notarized document was included with the application signed by Kevin R. Jergensen authorizing Jonathan Clegg to sign on behalf of the Church. The parcel at the rental POD & POU is owned by the applicant. No concerns with authority to file.

WATER RIGHT VALIDITY: Water right validity was evaluated as part of the lease application review and found no concerns.

INJURY TO OTHER WATER RIGHTS: ETRAN V3.4 modeling was completed for this application, see below, and found that no mitigation would be required. There will not be a change in source, and both the lease and rental are within the ESPA GWMA.

ENLARGEMENT OF USE: The beneficial use and season of use will not be changed under this rental. This groundwater right has historically been used as a primary right and will continue to be used as such under this rental. This right was accepted into the bank with rights 22-7680B and 22-7687, but previous rentals have only used one water right per rental from this suite. The total combined amount authorized for use will not be exceeded by this rental, see below. This rental will authorize a volume/acre that is lower than the area standard, however the applicant confirmed in a phone call that this would be sufficient. Additionally, the rental POU is not overlapped by any other water rights. The rental POD is also the POD for the applicant's existing right 25-7568 which allows for 0.03 cfs, 4.0 af, and 1.0 acre of irrigation plus 0.06 cfs and 4.1 af for domestic use at the church. To match the duty of water of right 25-7568 4.9 acres will be rented for 0.07 cfs and 14.3 af but reduced to 2.3 acres and 9.2 af.

**Amount rented was proportionate at 0.31 cfs but was limited to the use of 0.02 cfs to account for stacked rights at the POU and is primarily for volume and acreage. The reduction allows additional rentals of these rights.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is subject to Water District #120. A request for comments was sent to the WD #120 watermaster and the IDWR Eastern Regional Office on 5/10/2024.

Hi Mackenzie,

I think we could do the 2.9 AF/acre right if we are able to get that going this year. I assume the water right we identified in the application is no longer available. I think I would like to move ahead with this but would appreciate a call to make sure I understand everything.

Thanks.

[External Email]

Good afternoon, Scott,

I am temporarily assisting the Water Supply Bank in processing some applications, including The Church's application for 2.3 acres to irrigate a ball field. Is there a specific volume that The Church needs for this rental? There is a water right that is likely able to satisfy this rental, but it has a lower volume per acre (2.9 af/acre).

Please feel free to call or email me with any questions or comments.

Thank you!
