NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

WATER SUPPLY BANK LEASE CONTRACT No. 1727

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

13	Narrative The application for lease was received August 18, 2023, signed by the right holder, Gregory Urrutia. The applicant is seeking to lease the full right 63-3010 into the WSB from 2024-2028 (5 year term). Within the 80 acre right POU 3 parcels equaling 15 acres are owned by other persons. However, there has been no change in ownership of right 63-3010, and no other rights overlap the POU. All irrigation appears idle with the exception of some small lawn areas surrounding the 3 homes, totaling less than 1/2 acre. The full right has been in the bank since 2005, the right was decreed in 2009, and all three homes were built in the 90's. On September 14th, 2023, I called Greg Urrutia and inquired the source of the water used to irrigate the small areas around the 3 homes. The applicant confirmed there is no surface water available within the POU. The home owned by the Benders' located to the north of his home has it's own domestic well, and his home and the neighbors home to the southeast have a shared well agreement for the right POD well for domestic use. As all 3 houses would be considered exempt domestic uses the lawn and garden areas were not excluded from the leased irrigation right. However, if the right is rented it can be further reviewed to see if any portion should be considered unrentable.
