MEMORANDUM FOR APPLICATION # 2660

To: Water Right No. 37-22891, 37-22893, 37-22895, 37-22897

From: Skyler Cheever, Water Resource Agent

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2660 was sent in by West of First LLC and received on April 26th, 2023, with the correct fee payment received the same date. The applicant proposes to lease the entirety of water rights 37-22891, 37-22893, 37-22895, and 37-22897 into the water supply bank from 2023-2028. The place of use will continue to receive water from the City of Hailey Municipal system. The point of diversion is within the Snake River Basin and Big Wood River Moratorium, Big Wood River Ground Water Management Area, Galena Groundwater District, and Trust Water Area. This application is a renewal of lease contract 862 which expires on December 31st, 2023.

AUTHORITY TO FILE:

Mark Caplow signed the application. Mr. Caplow has the authority to file this agreement because he is a manager with the company according to the Idaho Secretary of State's Office. West of First LLC is the current owner of water rights 37-22891, 37-22893, 37-22895, and 37-22897 according to Department records.

WATER RIGHT VALIDITY:

The parent water rights, 37-21811, 37-21813, 37-21815, and 37-21817 were decreed in 2011. A change in ownership split and created the proposed water rights in 2014. The Water rights were leased into the water supply bank from 2014- December 31st, 2023, because they began receiving water from the City of Hailey Municipal system. Any water rights leased or rented from the water supply bank would be within a valid defense to forfeiture during the contracted period according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to indicate these water rights are likely not lost to forfeiture and can be leased into the water supply bank.

INURY TO OTHER WATER RIGHTS:

The proposed water rights divert from the Hiawatha Canal. A letter was provided by the canal company recommending a 20% conveyance holdback to compensate for seepage from the canal. The diversion rate made available for rental per water right will be reduced by 20%

ENLARGEMENT OF USE:

According to the GIS place of use shape, a portion of the parent water rights overlaps the proposed place of use. However, the sum of the place of use of both the parent and proposed POU's are equal to the number of acres the parent right originally authorized. Therefore, the parent and proposed water rights are not considered "stacked" according to Administrative Water Rights Transfer Memo #24 and can be leased and made rentable separately without causing an enlargement. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

The application is consistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within Basin 37 and Water District 37. The Watermaster and Southern Regional Manager were contacted for comment on September 15th, 2023. No response was received, it is assumed there is no concern with this proposal.

Re: Water Rights 37-22910, 37-22911, 37-22912 and 37-22913; 37-22890, 37-22892, 37-22894 and 37-22896; 37-21811, 37-21813, 37-21815, and 37-21817; and 37-22891, 37-22893, 37-22895 and 37-2289.
Applicant: West of First, LLC

Dear Sir or Madam:

The purpose of this letter is to address the aforementioned water bank lease application, which water right is conveyed by the Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company") For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and its laterals and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that the Water Bank should require twenty-percent (20%) of the right be left in the Canal as conveyance loss.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty percent (20%). and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers and leases to the Water Bank. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

COPY

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that 20% of the right is left in the main Hiawatha Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank. or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions. please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY
