*Re: Blaine County School District: Water Rights 37-183A, 37-298C, 37-334E,
37-577BX and 37-21114*

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty percent (20%). and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

COPY

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty percent (20%) of the right is left in the Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2743 was sent in by the Blaine County School District #61 and received on September 5th, 2023, with the correct fee payment received the same date. The applicant proposed to lease the entirety of water rights 37-183A, 37-298C, 37-334E, and 37-577BX into the water supply bank from 2024-2028. The place of use will continue to receive water from the City of Hailey Municipal system. The point of diversion is within the Snake River Basin and Big Wood River Moratorium, Big Wood River Ground Water Management Area, Galena Ground Water District, and Trust Water Area. This application is a renewal of lease contract 1611 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

James Foundy signed the application. Mr. Foundy has the authority to file this agreement because he is a superintendent with the district according to the district's website. The Blaine County School District is the current owner of water rights 37-183A, 37-298C, 37-334E, and 577BX according to Department records.

WATER RIGHT VALIDITY:

The proposed water rights were decreed in 2011. The water rights were leased into the bank in 2017 and have been leased every year since. According to Multiple Programs Memo #2 a water right can be leased into the water supply bank in the 6th year of nonuse. Any water right leased into or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, there is enough evidence provided to the bank to conclude water rights 37-183A, 37-298C, 37-334E, and 37-577BX are likely not lost to forfeiture and can be leased into the water supply bank.

INJURY TO OTHER WATER RIGHTS:

The proposed water rights divert from the Hiawatha Canal system. According to a letter provided by the canal company on October 3rd, 2023, they recommend a 20% conveyance holdback to account for seepage losses from the canal. I am recommending the diversion rate of each right be reduced by 20% to account for seepage losses.

ENLARGEMENT OF USE:

The proposed water rights are limited to the irrigation of 20.8 acres. If the water rights were leased and rented separately more acres would be irrigated than was historically leading to enlargement. Therefore, the proposed water rights should be leased together to prevent enlargement.

In previous lease contracts acres available to rent were limited based on the understanding that portions of these rights would be converted to mitigation by nonuse to offset the beneficial use proposed in pending applications for permit 37-23098 and 37-23048. Application 37-23098 has been withdrawn and at the time of this review a mitigation plan has not been submitted for application 37-23048. Since the point of diversion of 37-23048 is within the ESPA Moratorium area and a mitigation plan has not been received according to current Department records, the application has been placed on indefinite hold. Restricting the rental of these rights is not

necessary at this time, the full number of acres can be rented without enlargement concerns if the diversion rate reduction for conveyance loss is maintained.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 37 and Water District 37. The Watermaster and Southern Regional Manager were contacted for comment on November 1st, 2023. No response was received, it is assumed there was no concern with the applicant's proposal.

Good morning, Lori,

I do not see that we have received permissions from Hiawatha Canal Company for the Water Supply Bank applications in the name of Blaine County School District #61. Was the letter sent to your office by chance?

Thank you,

Water Bank Lease Application (37-21114)**

Dear Mary,

Enclosed on behalf of Blaine County School District #61, are five applications to lease the above water rights to the water supply bank. These rights are currently in the bank under Contract Nos. 1611 and 1614 that are set to expire 12/31/2023. The School District Superintendent James Foudy signed the applications. The applications are summarized below:

- **Middle School** Hiawatha water (5 years) (\$500 fee)
37-183A
37-298C
37-334E
37-577BX
- **Subdivision** Hiawatha water (5 years) (\$250 fee)
37-21114

Because the leased water is conveyed through the Hiawatha Canal, an authorization letter from Hiawatha Canal Company has been requested and will either be directly submitted to IDWR from Hiawatha's attorney (Fritz Haemmerle) or by HDR if the authorization is sent to us instead.

The \$750 filing fee is being paid with a credit card at time of submittal. Please let me know if there are any questions. Thanks Mary.

Sincerely,

Lori Graves
