8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. 13	Narrative		
	The Department received this application on September 18, 2023. This applicant proposes to lease the full right into the WSB until December 31, 2028 (the maximum 5 year term). However, the 2019 lease review found no evidence supporting irrigation of the entire POU, additionally no evidence was presented by the applicant supporting any irrigation within 21 acres of the POU in question. Therefore, only 75.5 acres of irrigation (of the 96.5 acre POU) was accepted into the WSB through 12/31/23. IDWR lists the applicants as the current owners of the rights proposed for lease. Review of satellite imagery did not find any evidence of irrigation occurring within the right POU since 2019. I am recommending that we accept the same 75.5 acres of right 73-12038 for the current lease into the WSB for the 2024-2028 term.
