1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water rights 34-2478 and 34-02500B are limited to the irrigation of a combined total of 38 acres in a single irrigation season.

	Narrative: The Department received application #2762 on September 20, 2023. The application was submitted and signed by Howard Wood (right owner) on behalf of himself and Sheila Wood (other right owner). The applicant proposes to place the entirety of both rights 32-2478 & 34-2500B in the Water Supply Bank (WSB). Both rights were decreed in 2002. As mentioned in the previous review, the state has issued drought declarations in Butte county in 2008, 2010, 2013, 2014, 2015 and as recently as 2022. As in the previous application the applicant stated there isn't a current delivery system in place and the ground water comes from the spring, which has been dry off and on for many years. The water rights have been in the WSB since 2014, currently active under lease contract 855, ending 12/31/2023. Both rights are within WD 34. Sources for the rights are groundwater and spring-sinks.
