MEMORANDUM FOR WSB LEASE APPLICATION # 2763

To: Water Right No(s). 63-32625

From: Skyler Cheever, Water Resource Agent

Date: 11/1/2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2763 was sent by the Nampa School District #131 and received on September 20th, 2023, with the correct fee payment received on October 11th, 2023. The applicant proposes to lease 7.5 acres of water right 63-32625 into the water supply bank from 2024-2028. 7.5 acres will continue to be irrigated within the 15-acre place of use. The point of diversion is within Water District 63 but not administered. This application is intended as a renewal of contract 902 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Kelly Hildebrand signed the application. Ms. Hildebrand has the authority to file this agreement because she is the authorized representative for the applicant. Nampa School District #131 is the current owner of water right 63-32625 according to Department records.

WATER RIGHT VALIDITY:

Water right 63-32625 was decreed in 2008. The water right was leased into the water supply bank from 2008-December 31st, 2023. Any water right leased into or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude water right 63-32625 is likely not lost to forfeiture and can be leased into the water supply bank.

ENLARGEMENT OF USE:

There are no water rights that divert from the same point of diversion or have the same beneficial use that overlap the proposed place of use. To prevent any enlargement concerns due to a portion of water right 63-32625 being idled, the unleased portion should be limited to 0.18 cfs, 33.7 af, and the irrigation of 7.5 acres. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 63 and Water District 63 but not administered. The Western Regional Manager was contacted for comment on November 17th, 2023. No Response was received, it was assumed there was no concern with the applicant's proposal.
