4. GENERAL INFORMATION

- A. Identify the owner of the water delivery system or well IDWR District 37
If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e. (Label Attachment 4A)
- B. Please provide a description of the current water diversion and delivery system, including source, pump, pipeline or diversion.
Delivery canal system no longer accessible due to subdivision development.
- C. Describe any other water sources, including municipal, irrigation company shares, or water rights with combined limits to the water right offered to the bank, which are used for the same purpose at the same place of use as the water right being offered to the Bank. 37-21863, 37-21880, 37-21897, 37-21914, 37-21931 & 37-21976
- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands, and usually have combined limits in the conditions of the water rights. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.
- E. Will the present place of use continue to receive water from any other source, including those listed in 4C? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. _____
- F. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Label Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture, including lease into the Bank. Your application may be denied if forfeiture concerns are not addressed. Water right has been banked/leased for several years.
- G. Identify annual volumes and/or rates of water diverted (used) in the last 5 years to accomplish the beneficial use authorized by this water right. N/A, the right has been banked/leased for several years.
- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan? ☒ ☐
If yes, describe. Yes No
A portion of this right is in process of owner transfer.

The administrative fee retained by the IWRB is 10% of either the current rental rate or the negotiated rental fee, whichever is higher. Include the method of determining the minimum payment if submitted as a companion lease rental package, and whether the owner payment will be paid directly to the lessor from the renter or if owner payment should be collected by the Department from the renter for payment to the lessor. (Label attachment 5B).*
- Current and future rental rates established by IDWR District 37

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Lessor / Applicant acknowledges the following:

1. Payment to the Designated Lessor / Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Lessor / Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

4. GENERAL INFORMATION

- A. Identify the owner of the water delivery system or well IDWR District 37

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e, (Label Attachment 4A)

- B. Please provide a description of the current water diversion and delivery system, including source, pump, pipeline or diversion.
Delivery canal system no longer accessible due to subdivision development.

- C. Describe any other water sources, including municipal, irrigation company shares, or water rights with combined limits to the water right offered to the bank, which are used for the same purpose at the same place of use as the water right being offered to the Bank. 37-21863, 37-21880, 37-21897, 37-21914, 37-21931 & 37-21976

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands, and usually have combined limits in the conditions of the water rights. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source, including those listed in 4C? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Label Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture, including lease into the Bank. Your application may be denied if forfeiture concerns are not addressed. Water right has been banked/leased for several years.

- G. Identify annual volumes and/or rates of water diverted (used) in the last 5 years to accomplish the beneficial use authorized by this water right. N/A, the right has been banked/leased for several years.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan? ☒ Yes ☐ No

If yes, describe.

A portion of this right is in process of owner transfer.

4. GENERAL INFORMATION

- A. Identify the owner of the water delivery system or well IDWR District 37
If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e. (Label Attachment 4A)
- B. Please provide a description of the current water diversion and delivery system, including source, pump, pipeline or diversion.
Delivery canal system no longer accessible due to subdivision development.
- C. Describe any other water sources, including municipal, irrigation company shares, or water rights with combined limits to the water right offered to the bank, which are used for the same purpose at the same place of use as the water right being offered to the Bank. 37-21863, 37-21880, 37-21897, 37-21914, 37-21931 & 37-21976
- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands, and usually have combined limits in the conditions of the water rights. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.
- E. Will the present place of use continue to receive water from any other source, including those listed in 4C? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. _____
- F. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Label Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture, including lease into the Bank. Your application may be denied if forfeiture concerns are not addressed. Water right has been banked/leased for several years.
- G. Identify annual volumes and/or rates of water diverted (used) in the last 5 years to accomplish the beneficial use authorized by this water right. N/A, the right has been banked/leased for several years.
- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan? ☒ ☐
If yes, describe. Yes No
A portion of this right is in process of owner transfer.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Lessor / Applicant acknowledges the following:

1. Payment to the Designated Lessor / Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Lessor / Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

Aaron,

I am sorry to be slow in responding. We may have a purchaser for the water rights.

Is there any problem, or any negative impact on the rights, if we wait a month and either transfer or bank the rights. The other option is to bank but request that they not be leased for a month.

Mary,

I don't know if you recall this matter, but we took one course, was told we needed something different, and now here something different again. So, I would like to talk with you and get some specific directions. Would that be possible?

If so, I am traveling out of the country but could talk later on the 26th or on the 27th if there would be a time that works for you.

We filed an application to transfer a portion (9 of 27 acres) of our water rights. They are presently leased to the bank and leased from the bank. The lease to the current user expires 12/31. We were told we needed to take additional steps and were but when we asked about a specific point, learned that we may have the wrong approach.

We need to figure out exactly what we need to do. We also need to make sure that a new lease from the bank does not occur or will not interfere with the transfer.

I hope we can talk and figure it out.

I hope your holidays are happy!

Hi, Mary. I hope you had nice holiday time and Happy New Year.

I am hoping you have had a chance to review the lease applications we sent. I would like to confirm that we have done everything we need to in order to (1) transfer 9 acres of rights and (2) lease the remaining acres of rights.

Can you please confirm that or let us know what more needs to be done? I am happy to talk on the phone (206-715-8900) if that is easier.

Thank you so much.

Phil,

A water right leased into the Board's bank that is also rented cannot be removed from the bank or transferred. The current rental agreement against the leased water right ends 12/31/2024, so an action on the lease can be taken for 2025. A request to release a water right from the Board's bank form can only be used to cancel the entire contract and cannot be used to remove only a portion of a leased water right. If you would prefer to cancel the entire lease contract, please submit a new release form with an effective date of 12/31/2024.

In order to release only the 9-acre portion to be transferred, Bellevue Farms LOA will need to file new lease applications for the water rights, along with the filing fee of \$500, for the reduced amount (18 acres). This action would end the current contract on 12/31/2024, while also creating a new contract to begin in 2025 for the term of your choosing. I've attached a lease application form for your convenience. The Start Year should be 2025. Please note that a new rental application has been submitted to our Department to rent these water rights beginning in 2025, but I will mark these leased water rights as unavailable for rental if you will be submitting a new lease application for 2025 to change the acres leased in so that the transfer is not prolonged further.
