WATER SUPPLY BANK LEASE CONTRACT No. 1789

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1 provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.
13. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 2.
14. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2799, 2800, 2801, and 2802 was sent in by Crown Farm Outback LLC with co-owners Crown Reality LLC and received on October 30th, 2023, with the correct fee payment received on October 10th, 2023. The applicant proposes to lease the entirety of water rights 2-10181, 2-10189, 2-7064, and 2-7237A into the water supply bank from 2024-2026. This lease application is part of a lease rental package with rental application 2798. All the proposed points of diversion are within the Snake River Basin Moratorium Area and Trust Water Area. The points of diversion for water rights 2-10181, 2-7064, and 2-7237A are within the Bruneau-Grandview Groundwater Management Area. These applications are intended as a renewal of contracts 1399, 1400, 1401, and 1402 which are set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Oliver Lawrence signed the applications. Mr. Lawrence has the authority to file this agreement because he has been listed on past applications as Asset Manager for Crown Reality LLC. He signed as the authorized representative for Crown Farm Outback LLC. Bryce Farris is the designated representative and completed the application on the applicant's behalf. Water rights 2-10181, 2-10189, 2-7064, and 2-7237A are owned by Crown Farm Outback according to Department records.

WATER RIGHT VALIDITY:

Water Rights 2-7064 and 2-7237A were licensed in 1985 along with parent right 2-7060. 2-10181 and 2-1089 were created after being spilt from 2-7060. All four rights were decreed in 2011. The rights were leased into the water supply bank from 1999 through December 31st, 2023. Any water right leased into or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude water right 2-10181, 2-10189, 2-7064, and 2-7237A are likely not lost to forfeiture and can be leased into the bank.

INJURY TO OTHER WATER RIGHTS:

Water rights 2-10181, 2-7064, and 2-723A are conditionally stated to divert from the Bybee Canal System. In previous lease application reviews Chris Alzola, an agent from the Canal Association, stated Crown Farms Outback LLC is not part of the Canal Association. The Association did not have any comments on the water rights being leased. Although these rights are conditioned to divert from the canal system it seems the Association does not have injury concerns with administration of these rights or impacts to other canal users. There are no other injury concerns.

ENLARGEMENT OF USE:

There are no other water rights sharing the same beneficial use overlapping the places of use for water rights 2-10181, 2-7064, and 2-7237A. Water right 2-10450 possibly overlaps 2-10189 in Township 06 N, Range 10 E, Section 12 SENE. However, after looking at the water right report 2-10450 authorizes 18.5 acres in the SENE and 2-10189 authorizes 21.5 acres or the full

40 acres in the Quarter/Quarter. Therefore, it is likely there is no overlap. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The points of diversion are within basin 2 and Water District 2. The Watermaster and Western Regional Manager were contacted for comment on December 27th, 2023. No comment was received, it is assumed there are no concerns with the applicants' proposals.
