MEMORANDUM FOR WSB LEASE APPLICATION # 2884

To: Water Right No(s). 37-2546B

From: Skyler Cheever, Water Resource Agent

Date: 2/16/2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2884 was sent in by the Wood River Land Trust Co. and received on January 8th, 2024, with the correct fee payment received on the same date. The applicant proposes to lease the entirety of water right 37-2546B into the water supply bank from 2024-2028. The point of diversion is within the Snake River Basin and Big Wood River Moratorium, Big Wood River Groundwater Management Area, South Valley Groundwater District and Trust Water Area. South Valley Groundwater District was notified of this lease application. This application is intended as a renewal of contract 922 which expired on December 31st, 2023.

AUTHORITY TO FILE:

Amy Trujillo signed the application. Ms. Trujillo has the authority to file this agreement because she is the executive director of the company according to the Idaho Secretary of States Office Database. The Wood River Land Trust Co. is the current owner of water right 37-2546B according to Department records.

WATER RIGHT VALIDITY:

Water Right 37-2546B was decreed in 2009. The entire right was leased into the bank from 2014-December 31st, 2023. Any water right or portion thereof leased into or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude water right 37-2546B is likely not lost to forfeiture and can be leased into the bank.

INJURY TO OTHER WATER RIGHTS:

There are no injury concerns with idling this water right. Any injury concerns would be assessed during a rental application review.

ENLARGEMENT OF USE:

There are no other water rights diverting from the same point of diversion or possess the same beneficial use overlapping the proposed place of use. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 37 and Water District 37. The Watermaster and Southern Regional Manager were contacted for comment on February 16th, 2024. No comment was received, it is assumed there are no concerns with the applicant's proposal.
