It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

MEMORANDUM FOR APPLICATION # 2703

To: Water Right 77-10105

From: Catalina Beck Technical Records Specialist I

Date: December 29, 2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Nancy Kozlowski applied for application 2703 received on July 24, 2023. The proposed lease is the full water right of 77-10105(.020^{cs}) for 5 years starting in 2024 and ending in 2028. The primary use proposed on this lease would be for stock water and has been leased to the Water Supply Bank (WSB) in 2019 through 2023 (lease application 1013).

AUTHORITY TO FILE: The application was signed by Nany Kozlowski the sole owner of: Water Right 77-2048, 77-2095 and 77-10105. Water right 77-2048, 77-2095 are separate applications (2701) for irrigation use. There are no concerns with authority to file the lease application.

WATER RIGHT VALIDITY: Water Right 77-10105 was partially decreed in 2000 to Rose Nealand and changed ownership to previous owner Nany Kozlowski in 2004. The water right was leased to the bank in 2019 through 2023. The stockwater component of right 77-2048 will be leased into the water supply bank. The proposed PODs are diversions from Lick Creek. Various ditches convey the water to the POUs. There were concerns that the right has not been exercised for 5 years in pervious lease application (1013) however previous lease review memo done on related water rights 77-2048 and 77-2095 along with a letter submitted by the applicant indicate the right has been used as recently as 2016 and 2017 for livestock and water right 77-10105 was in water supply bank for five consecutive years. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: No injury to other water rights.

ENLARGEMENT OF USE: No enlargement is expected through the lease.

LOCAL PUBLIC INTEREST: Review staff have no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The lease PODs are located within the MSF reach of Lick Creek. The PODs are not currently subject to watermaster control. Western Regional Office were contacted for comments or concerns.
