WATER SUPPLY BANK LEASE CONTRACT No. 1800

4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right 29-4406 is limited to the irrigation of 30.0 acres within the place of use described above in a single irrigation season.
13. Right 29-4408 is limited to the irrigation of 22.0 acres within the place of use described above in a single irrigation season.
14. Right 29-4423 is limited to the irrigation of 30.0 acres within the place of use described above in a single irrigation season.
15. Right 29-12055 is limited to the irrigation of 8.0 acres within the place of use described above in a single irrigation season.
16. Rights 29-4406, 29-4408, 29-4423, and 29-12055 when combined shall not exceed a total diversion rate of 1.09 cfs and the irrigation of 61.8 acres.
17. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 29H.

MEMORANDUM FOR WSB LEASE APPLICATION # 2854

To: Water Right No(s). 29-4406, 29-4408, 29-4423, 29-12055

From: Skyler Cheever, Water Resource Agent

Date: 1/11/2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2854 was sent in by the Arimo Corporation with co-owner Christopher F. Robinson and received on December 12th, 2023, with the correct fee payment received on December 18th, 2023. This application is part of a lease rental package with rental application 2853 which was submitted by Potter Creek Ranch with co-owner Christopher F. Robinson. The applicant proposes to lease the entirety of water rights 29-4406, 29-4408, 29-4423, and 29-12055 into the water supply bank for 2024. The proposed point of diversion is within the Snake River Basin Moratorium Area, and Non-Trust Water Area. This application is intended as a renewal of contract 1722 which expired on December 31st, 2023.

AUTHORITY TO FILE:

Christopher Robinson signed the application. Mr. Robinson has the authority to file this application because he is the president of the Armino Corporation according to the Idaho Secretary of States Office Database. The Arimo Corporation are the current owners of water rights 29-4406, 29-4408, 29-4423, and 29-12055 according to Department records.

WATER RIGHT VALIDITY:

Water rights 29-4406, 29-4408, 29-4423, and 29-12055 were decreed in 2004. During the previous review the applicants indicated the place of use was flood irrigated every year except for 2023. Aerial imagery indicated greenery was present at the place of use from 2005-2022. It was difficult to tell if the greenery is due to diversion of water from springs and surface water authorized under the proposed water rights or sub irrigation from Marsh Creek adjacent to the place of use. However, with cattle present in imagery within the place of use it is likely water was diverted to irrigate pasture or crops and not due to sub-irrigation from Marsh Creek. Therefore, enough evidence is available to the bank to conclude water rights 29-4406, 29-4408, 29-4423, and 29-12055 are likely not lost to forfeiture and can be leased into the water supply bank.

INJURY TO OTHER WATER RIGHTS:

Any injury concerns this lease application could pose are associated to their location in relation to rental application 2853. Those concerns will be addressed in the review of the rental application.

ENLARGEMENT OF USE:

Water rights 29-4406, 29-4408, 29-4423, and 29-12055 are limited to 1.24 cfs and the irrigation of 61.8 acres. However, rights 29-4406, 29-4408, and 29-4423 include stockwater use that is not being leased into the bank according to the applicants during the last lease application review. Therefore, the diversion rate of rights 29-4406, 29-4408, 29-4423 and the combined limit total should be reduced to remove stockwater use. If these rights were leased and rented separately there would be more diversion rate, volume and acres irrigated than was historically leading to enlargement. To prevent enlargement these rights should be leased together. The place of use is within the Portneuf Irrigation Company service area. However, during the

previous application review in 2023 the applicant confirmed no surface water shares are available at the place of use. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 29 and Water District 29H. The Watermaster and Eastern Regional Manger were contacted for comment on January 11, 2024. No response was received, it was assumed there were no concerns with the applicant's proposal.

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2024**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."
