ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2028**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. MEMORANDUM FOR APPLICATION # 2920

To: Water Rights 61-12348, 12349, 12350, 12351, 12352, 12353
From: Bob Howe
Date: 03/25/2024
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: On February 7, 2024, IDWR received the completed water supply bank lease application with fee payment from J&M Solid Rock for the partial lease of stacked water rights 61-12348 through 61-12353, for a 5-year term (through 2028). This lease is a duplicate of the 2023 lease for an additional 5 years. The previously lease for 62.3 acres of irrigation, had several errors that were repeated in the current application. In the previous lease review, I found that the legal description for the points of diversion (PODs) on the proposed lease had the quarter-quarter information transposed. I emailed the lessors and Hal Anderson (named representative) confirmed that the points of diversion had somehow been reversed on the legal description in the lease application. Additionally, the application describes the proposed lease as the total additive volume, diversion rate, and acres of the water rights. The water rights appurtenant to the purposed lease have conditions stating combined limits of 0.94cfs, 249af, and 62.3 acres. In review of the 2023 lease, we requested that the applicant submit the full rights, so we can accommodate the rental request received with the leases. The representative confirmed that the lease applications should both be for the full water rights.

AUTHORITY TO FILE: The application for the partial lease of water rights 61-12348 through 61-12353 was signed by Duane Amyx, named member of J&M Solid Rock LLC (confirmed on the ISOS 2023 annual report). According to IDWR records all the water rights submitted in the purposed partial lease are owned by J&M Solid Rock LLC. The current tax lot data names the applicants as owners of parcel RP01S04E144840, which is the location of the place of use (POU) and points of diversion (POD) for the water rights purposed for lease. There are no concerns regarding the authority to file the application for lease.

WATER RIGHT VALIDITY: Google Earth and GIS imagery were used to confirm that the applicants have idled the pivot within the place of use for the purposed lease. The water rights on the purposed lease have been partially leased into the water bank since 2021. There are no concerns with validity of the water rights and portions offered to the bank.

ENLARGEMENT OF USE: Water rights 61-12280 through 61-12258 were split in 2020 into water rights 61-12348 through 61-126353. The current water rights purposed for partial lease are stacked and cannot exceed the combined flow and volume limits stated on the appurtenant water rights. Rights 61-12348, 61-12349, 61-12350, 61-12351, 61-12352 and 61-12353 when combined shall not exceed a total diversion rate of 0.94cfs, a total annual maximum diversion volume of 249af, a total annual maximum consumptive use volume of 184 af, and the irrigation of 62.3 acres in a single irrigation season. There are no concerns regarding enlargement if the full water rights are offered to the bank.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The locations of the purposed lease PODs are within Water district #161, the Mountain Home GWMA and CGMA-Cinder Cone Butte, in which all ground water rights are administered. Watermaster, Ed Van Etten, was sent a comment request email with an attached copy of the purposed lease contract, map, and lease review.
