PROOF DEFICIENCY LETTER

RE: Lapsed Permit No. 63-34077

Dear Permit Holders:

On December 15, 2025, the Department received a Statement of Completion for filing proof of beneficial use (proof) without the license examination fee for permit 63-34077 (permit). According to Department records, the permit lapsed because the appropriate proof or a Request for Extension of Time for filing proof of beneficial use (extension) was not received on or before the proof of beneficial use due date of **November 01, 2025**.

On November 12, 2025, the Department sent a Lapse Notice to the permit holder of record providing a 60-day period to file either a proof or extension for this permit that would allow for reinstatement of the lapsed permit.

On December 15, 2025, the Department received an incomplete proof form.

On December 17, 2025, the Department returned the proof form with a deficiency letter for additional information and the license examination fee.

On January 2, 2026, the Department received the resubmitted proof form with the requested additional information. The license examination fee was not received.

On January 5, 2026, the Department notified the permit holder by email that the proof is not complete until the license exam fee is received, and that if the license examination fee was not received by January 11, 2026 additional items would be required to reinstate the permit.

Because the license exam fee has not been received by the Department within the 60-day period the proof form cannot be processed without additional requirements. I am returning your proof form.

This letter is to provide you with information for reinstatement of a permit more than 60 days after notice of lapsing. Also, to inform you the priority date of the permit will be advanced to the date an acceptable proof is filed that complies with all of the requirements of Idaho Code § 42-218a(3), which reads:

In connection with a proof of beneficial use statement submitted more than sixty (60) days after such notice of lapsing, the director shall require all of the following items to be submitted to the Department: **(a)** A report prepared by a certified water right examiner as the result of an examination to clearly confirm and establish the extent of the beneficial use of water established in connection with the permit during the time authorized by the permit and any extensions of time previously approved. The report shall be on the form or forms specified by the director and shall provide the information specified in section 42-217, Idaho Code, for confirming beneficial use and such other information as may be required by the director. **(b)** A statement of reasonable cause for filing a late proof of beneficial use. **(c)** A reinstatement fee of two hundred fifty dollars (\$250). Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

The field report required by Idaho Code § 42-218a(3)(a) must clearly confirm and establish the extent of the beneficial use of water during the authorized development period of the permit from October 22, 2015 to November 1, 2025. The Request to Reinstate a Permit Lapsed more than Sixty Days form required under Idaho Code § 42-218a(3)(b) must provide reasonable cause for filing proof late and be accompanied by a \$250.00 reinstatement application fee required under Idaho Code § 42-218a(3)(c).

Permit 63-34077 remains lapsed and is of no force nor effect.

If you cannot meet the requirements explained above to reinstate this permit, you may be able to apply for a new water right permit or seek other remedies. Please contact our regional office in your area for information related to new appropriations or other options. Department forms are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions regarding this permit, please contact me at (208) 287-4945.

Sincerely,

Julie Adams

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE). Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 63-34077 Name of Permit Holder(s) ROBERT C & LYNDA D. LEARSCH
Telephone No. 208 362 4640 Email Jr sy bob 117@gmail.com
Mailing Address 8955 S BROWN Wheel W City KUNA State ID Zip 83634

2. Source of Water WELL If Ground Water (well), Date Drilled mo. 9 /yr. 2020
Drilling Permit/Tag No. 63-34077 Drilling Company's Name CAN ADA WELL

3. Extent of use(s) completed as authorized by the water right permit:
Domestic (No. households) _____ Irrigation (No. acres) 24 Stockwater (No. and stock type) COWS
Other grow Hay

4. Total diversion rate or volume (storage only) for which proof is submitted 0 cfs OR 0 af
If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)
WELL - SHP PUMP - 2" POLY FEED LINE

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:
Required? Yes No (If "Yes", attach required data, evidence of compliance, or evidence of installation)
 Ground water level data, pumping information, or other diversion data
 Mitigation plan
 Lockable controlling works
 Measuring device
 Fish screen
 Other requirements of the water right permit _____
 Reasonably Anticipated Future Needs ("RAFN") Municipal use
If RAFN Municipal use, additional increment of beneficial use developed? Yes (attach CWRE report) No

RETURNED

7. Fee Enclosed \$ _____ or CWRE field report attached or No fee required
See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:
Name: ROBERT LEARSCH Telephone No. 208 724 3698 Email _____
Mailing Address 8955 S BROWN Wheel W City KUNA State ID Zip 83634

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.
