1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. 4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

WATER SUPPLY BANK LEASE CONTRACT No. 1856

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Leased surface rights 34-282C and 34-452E were historically delivered through private ditch just upstream from the Lower Burnett diversion structure.
13. Use of water under leased rights 34-282C, 34-452E, 34-2438, and 34-10795 will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
14. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
15. Leased rights 34-2438 and 34-10795 when combined shall not exceed a total diversion rate of 0.51 cfs and a total annual maximum diversion volume of 105.0 af at the field headgate.
16. Leased rights 34-2438 and 34-10795 when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
17. Leased right 34-10795 is for an enlargement of Right No. 34-2438 pursuant to Section 42-1426, Idaho Code.
18. Leased right 34-10795 is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
19. Leased rights 34-282C, 34-452E, 34-2438, and 34-10795 when combined shall not exceed a total diversion rate of 0.75 cfs and the irrigation of 30 acres.
20. During the term of this lease, the unleased portions of rights 34-282C and 34-2438 when combined shall not exceed a total diversion rate of 0.075 cfs and the irrigation of 3 acres.
21. The diversion and use of water for irrigation under right 34-2438 is limited to 3 acres within the authorized place of use described under water rights 34-2438.
