DEPARTMENT OF WATER RESOURCES**WATER SUPPLY BANK LEASE CONTRACT No. 1728**

This Lease Contract ("**Lease**") is between the Idaho Water Resource Board ("**Board**"), and

LESSOR: AUSTIN ISAAC
31695 STATE HIGHWAY 51
BRUNEAU, ID 83604-5072

RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on April 20, 2023.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
51-2213A	4/11/1966	GROUND WATER	0.80	200	40.0
Lease Totals			0.80	200	40.0

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2023 to December 31, 2027. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

WATER SUPPLY BANK LEASE CONTRACT No. 1728

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1728

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Non-offered Water Right No. 51-02089A is also diverted through point of diversion described above.
13. The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
14. There are 2 points of diversion located in T07S, R06E, S23, SWSE, Boise-Meridian.
15. The unleased portion of Right 51-2213A shall not exceed a total diversion rate of 0.90 cfs, a total annual maximum diversion volume of 225 af at the field headgate, and the irrigation of 45 acres.

Bank. Water Right 51-2089 A is also used for pasture
and/or stock water.

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased. _____

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. n/a

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☒ No ☐

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. Banked from 2004 - 2020

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?

If yes, describe. Yes ☐ No ☒

**RE: WATER SUPPLY BANK LEASE CONTRACT 1728
FOR WATER RIGHTS 51-2213A**

Dear Lessor:

Water right(s) **51-2213A** was/were leased into the Water Supply Bank (Bank) as of January 1, 2023, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right(s) will automatically be released from the Bank on **December 31, 2027**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Mackenzie Kienholz

Hi Austin,

The top pivot is about 14 acres, the bottom pivot is about 29.7 acres but round to 30. You had called me and said $30.7 + 14.5 + 4.87$. Where are the 4.87 acres? The map you provided included an area you intended to irrigate with handlines on the west side between the two pivots. Is that the remainder for the 4.87 you will be irrigating?

Please see imagery, below.

Thanks,
Mary

MEMORANDUM FOR APPLICATION # 2649

To: Water Right(s) 51-2213A
From: Mary Condon
Date: September 13, 2023
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Application to lease a portion of right 51-2213A received on April 20, 2023 for five years from 2023 through 2027, but the owners were not completely sure the exact number of acres that would not be irrigated by the end of the year. Applicants are new owners and have put some of the water back to beneficial use during 2023. The applicant called our office on August 23, 2023 to update the amounts not offered for lease as $30.7 + 14.5 + 4.87$ acres which were irrigated in 2023 and will continue to be developed. An analysis of overlap and irrigation will be discussed under Enlargement of Use.

AUTHORITY TO FILE: Application to lease is signed by a designated lessor as one of the owners of the water right, with a designated lessor form attached with both owners' signatures. County parcel information shows they are also the owner of the land offered under lease. No concerns with authority to file.

WATER RIGHT VALIDITY: Entire water right 51-2213A was adjudicated in 2001 and has been in the bank since 2004 through 2020. There have been as many as 55 acres of the 85 acre right rented from 2013 through 2020. No concerns with validity of the portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: There are two wells within the same 40-acre tract for diversion of the irrigation right, but only listed once on the water right report, as noted in the conditions for offered right 51-2213A. Other water rights from the two wells authorized from this right are owned by the applicant. The first water right is for stockwater under right 51-10149 and another water right is for domestic with five acres of irrigation under right 51-2089A. Lease of a portion of this water right would not cause injury to other water rights. Proper review to prevent injury if rented, as it is within the Bruneau-Grandview Ground Water Management Area (GWMA).

ENLARGEMENT OF USE: Offered right 51-2213A is for 85 acres, with 35 acres authorized in the SWSE of Section 23, and non-offered senior right 51-2089A is also authorized for 5 acres within the same 40-acre tract. Non-offered right 51-2089A does not have a shapefile, but is senior, and it appears offered right 51-2213A was developed on the remaining 35 acres, both covering the entire 40-acre tract. Additionally, while there is not a shapefile for right 51-2089A, the shapefile for offered right 51-2213A covers the entire 40 acre-tract. These two irrigation rights do not have a combined limit, and there is no overlap. There will be a total of 32 acres irrigated within the 40 acre-tract, where 27 acres will be deducted from offered right 51-2213A and the last five from non-offered right 51-2089A. No portion of right 51-2089A is offered for lease, nor has it been in the past.

Additionally, the new owners' development has slightly changed the layout of use in the NWSE, but complies with the legal's description limits of the right to no more than 10 acres. As such, there are approximately 6 acres irrigated within that quarter quarter, leaving 4 acres available to lease. Due to the difference between the water right shapefile and the current irrigation practices, the leased acres shapefile is larger than the actual number of acres accepted for lease.
