9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Section 42-1412(6), Idaho Code.
14. The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.
15. The unleased portion of water right 63-33127 is limited to 0.47 cfs, 105.2 af, and the irrigation of 23.4 acres.

MEMORANDUM FOR APPLICATION # 2444

To: Water Right No. 63-33127

From: Skyler Cheever – Water Resource Agent

Date: 9/26/2022

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

The application was sent in by Carolyn Gibson and received on September 14th, 2022, with fee payment received the same date. The application proposes to lease the full supplemental right 63-33127 from 2023 to 2027. The primary irrigation water comes from Settlers Irrigation District. The water right is within the Basin 63 Groundwater Restricted Area. The right has been leased into the water supply bank since 2018 and expires on December 31, 2022.

AUTHORITY TO FILE:

The individual, Carolyn Gibson has the authority to file this lease agreement because she is the current owner, changed from Daniel Gibson in 2020, of the right under this application.

WATER RIGHT VALIDITY:

The water right has been leased in the water supply bank since 2018. The previous lease agreement proposed to lease 41.66 acres into the bank. However, 23.36 acres were unirrigated homes, driveways and roads and were not accepted into the bank. The remaining 18.3 acres under this lease authorizes the use of supplemental groundwater irrigation. There are no concerns with continued lease of the full right.

INJURY TO OTHER WATER RIGHTS:

There are two other rights that share the same point of diversion, 63-33128, and 63-32304. However, lease of this water right would not cause injury to these water rights.

ENLARGEMENT OF USE:

There would not be enlargement of use if water rented remains supplemental to Settlers Irrigation District rights or any other primary right with similar availability to canal rights. If water is rented to an applicant with a less reliable source, they would rely on supplemental use more than what is historically diverted thus resulting in enlargement.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The lease point of diversion is within Basin 63. The Western Regional Manager was contacted for comment on October 26, 2022. It is assumed they have no concerns if there is no response.
