DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1884

This Lease Contract ("Lease") is between the Idaho Water Resource Board ("Board"), and

LESSOR: FARMLAND RESERVE INC
60 E SOUTH TEMPLE STE 1700
SALT LAKE CTY, UT 84111-1008

RECEIVED

SEP 25 2024

**DEPARTMENT OF
WATER RESOURCES**

RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on January 08, 2024.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
35-2632	4/19/1961	GROUND WATER	0.180	40.0	10.0
35-8218	6/21/1983	GROUND WATER	0.024	Not Stated	10.0
Combined Lease Totals			0.200	40.0	10.0

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2024 to December 31, 2028. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.

IN FILE # 35-2632

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1884

5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

07S	29E	16					8.0	2.0											10.0

Total Acres: 10.0

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1884

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The unleased portions of Water Rights 35-02632 and 35-08218 when combined shall not exceed a total annual diversion volume of 912.0 af and the irrigation of a total of 228 acres.
13. Leased right 35-08218 when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre for irrigation of the lands above.

**APPLICATION TO SELL OR LEASE A WATER RIGHT
TO THE WATER SUPPLY BANK**

RECEIVED
JAN 08 2024
DEPARTMENT OF
WATER RESOURCES

Designated Applicant Farmland Reserve

(Select one owner – see item 1A on the application)

Water Right No. 35-2632

(One water right per application)

Is this application being submitted with a rental application as a lease/rental package?

Yes ☒ No ☐

This application must be prepared in accordance with the minimum requirement checklist below. Use this checklist to ensure all necessary documentation has been provided. This checklist is part of the lease application and must be included with the lease application. **Applications that do not meet the minimum requirements will not be processed and may be returned or denied.**

MINIMUM REQUIREMENT CHECKLIST

All items must be checked as either *Attached (Yes)* or *Not Applicable (N/A)*

Yes

- ☒ Completed *Application to Sell or Lease a Water Right to the Water Supply Bank*.
- ☒ Application filing fee of \$250.00 per water right. If you are submitting more than one lease application and the water rights have an overlapping, common place of use, or a common diversion rate or volume, the total fee for all water rights is \$500.00. For places of use, multiple water rights must be used to irrigate the same lands in order to qualify for the joint filing fee. Individual filing fees are required for water rights that share a common permissible place of use but which cover separate acres within the permissible place of use.
- ☒ Confirmation this form has been printed **single sided**, per requirement of the Water Supply Bank.

Attachment N/A Yes

- | | | | |
|----|-------------------------------------|-------------------------------------|--|
| 1A | ☐ | ☒ | Signatures and contact information for all owners of the water right to be leased or sold on this application. |
| 1B | ☒ | ☐ | An Internal Revenue Service (IRS) Form W-9 for the Designated Applicant. |
| 1C | ☒ | ☐ | <i>Notice of Change in Water Right Ownership</i> form (accessible from www.idwr.idaho.gov). |
| 1D | ☐ | ☒ | Contact information for an authorized representative and documentary proof they are authorized to represent the Designated Applicant on this application. If the Designated Applicant is a business, partnership, municipality, organization or association, include documents identifying officers authorized to sign or act on behalf of the entity. |
| 2 | ☐ | ☒ | Description of a water right portion offered to the Water Supply Bank. |
| 3 | ☐ | ☒ | A map that clearly outlines the specific location where irrigated acres will be dried up, or where a beneficial use of water will be suspended. You have the option of printing a map using the map tool on IDWR's website at: www.idwr.idaho.gov . |
| 4A | ☒ | ☐ | Written consent from irrigation district or water delivery company. |
| 4G | ☐ | ☒ | Evidence demonstrating the water right has not been forfeited pursuant to Section 42-222(2), Idaho Code . |

Mailing Address 2016 N Washington St Ste 4 Twin Falls, ID 83301

Phone Number 208-736-8543

☐ Send all correspondence for this application to the representative and not to the Designated Applicant.

OR

☒ Send original correspondence to the Designated Applicant and copies to the representative.

2. DESCRIPTION OF WATER RIGHT OFFERED TO THE BANK

☐ The full water right is being offered to the Bank.

OR

☒ A part of the water right is being offered to the Bank.

If a portion of the water right is being offered, **complete Attachment 2.**

3. MAP

Attach a map of the point(s) of diversion and place(s) of use proposed to be idled by this lease application. Make sure the idled place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to idle. If the water right proposed for lease is located within a permissible place of use (PPU) and portions of the PPU will continue to receive water from non-leased water rights, clearly outline on a map the acres within the PPU that will continue to be irrigated, as well as acres that will be idled during the lease term. Label the map **Attachment 3.**

STATE OF IDAHO
WATER RESOURCE BOARD

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).

- B. Please provide a description of the current water diversion and delivery system.
Existing POD, mainline and delivery system.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. 35-2632 and 35-8218

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. See historical aerial photographs.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe.

STATE OF IDAHO
WATER RESOURCE BOARD

APPLICATION TO SELL OR LEASE A WATER RIGHT
(Continued)

5. SALE/LEASE AGREEMENT

A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☒.

If lease, specify the years when the use of water will be suspended: 2024 to 2028 (maximum lease period 5 calendar years).
(Year) (Year)

B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.

Current rental rate _____

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

FOR WATER RIGHTS 35-7969, 35-4020A, 35-7596, 35-7611B, 35-7611A, 35-2632,
35-8218**

Dear Lessor:

Water rights 35-7969, 65-4020A, 35-7596, 35-7611B, 35-7611A, 35-2632, 35-8218 **are** leased into the Water Supply Bank (Bank) as of January 2024 in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right(s) will automatically be released from the Bank on **December 31, 2028**, unless the rights are released earlier by the Water Resource Board (Board). To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they are rented.**

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Hello,

Please see the attached copies of Executed WSB Lease Contracts 1866, 1869, 1871, 1872, 1873, 1874, 1876, 1877, 1882, 1883, & 1884, for your records.

We apologize for the delay in returning these finalized Water Supply Bank Lease Contracts. There was an unexpected delay between the time when the signed contracts were received by the Department and when the Department was able to confirm that we had all of the necessary information to accept the leases into the Water Supply Bank as valid

The contracts that were are returning to Farmland Reserve Inc are **copies** because the Department only received ONE signed copy of each contract, instead of the requested TWO signed copies of each. The Department is required to keep on file a copy of each lease contract that has the original signatures from both parties.

Thank you,

Debra Mansfield | Technical Records Specialist 1

RE: APPLICATION TO LEASE WATER RIGHTS 35-7969, 35-4020A, 35-7596, 35-7611B, 35-7611A, 35-2632, 35-8218 TO THE WATER SUPPLY BANK CONTRACTS 1874, 1876, 1877, 1882, 1883, 1884

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed ten original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contracts are not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2028** unless the rights are released earlier by the Board, or upon your request. To release a right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Sincerely,

Debra Mansfield

MEMORANDUM FOR APPLICATION # 2904 / CONTRACT 1884

To: Water Right(s) 35-2632 & 35-8218

From: Mary Condon

Date: July 17, 2024, July 29, 2024

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Application to lease 10 acres of stacked water rights 35-2632 and 35-8218 worth 238 acres of irrigation for five years, 2024-2028, received on January 8, 2024, as part of a companion package with other lease applications and rental application 2898. This review covers the lease of this right, only.

AUTHORITY TO FILE: Application to lease is filed for Farmland Reserve, and signed by Scott Baird, who is authorized to sign for Farmland Reserve according to the most recent State of Idaho business filing. Applicant is represented by Greg Sullivan with Brockway Engineering. County tax lot data shows the parcel(s) under the water right place of use (POU) and point of diversion (POD) are in the name of Farmland Reserve. No concerns with authority to file.

WATER RIGHT VALIDITY: Water right 35-2632 was decreed in 2002, and right 35-8218 was licensed in 1996. This is the first time these rights have been offered to the Board's bank. This lease is for a portion of the corner acres remaining in the NW and NE of the NW quarter of section 16 after the approved transfers 88772 and 88781 moved different corners from two new pivot set-ups. Review of 2023, 2021, and 2019 NAIP imagery shows full irrigation of all water right acres, while review of June and July 2024 Sentinel imagery shows conversion of the place of use to two full pivots. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: Lease of these water rights are not expected to cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE: There is some extended vegetation equal to approximately 12 acres in excess of the pivot place of use in the east half of section 16 visible in the June and July 2024 Sentinel imagery, which may be due to residual seeding from the previous years of full cultivation rather than excess irrigation or dry land farming, since it is a darker red than the pivot within the new place of use post transfers 88772 and 88781. Additional information was requested from the representative on July 18 via email about the excess vegetation to ensure it is not due to excess irrigation.

A field report (Inspection Report 1081 and 1082, attached) with photographs and additional sentinel imagery was provided by a representative for Farmland Reserve on July 23rd that the additional acres in excess of the 228 expected to be irrigated during 2024 are from wheat seeding for dry land farming rather than under irrigation. The specifications of the two new pivots were also provided, showing they provide irrigation for 114 acres each, or 228 acres total. This leaves 10 acres of irrigation which have been idled and can be brought into the bank for the five years requested.

No other water rights overlap the water right place of use or point of diversion. Enlargement is not expected through the lease of a portion of this water right.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is within the Eastern Snake Plain Aquifer (ESPA), within the Trust Water Area boundary, within the Aberdeen American Falls Ground Water District (AAFGWD) and is subject to Water District # 120. Request for comments or concerns emailed to the regional manager and watermaster on July 29, 2024.

Asset Inspection Report

Farmland Reserve

Submitted By: Jared Adamson

Submitted Date: July 23, 2024 12:56 PM

Report on routine asset inspections for Farmland Reserve Inc. The report is intended to summarize the condition of a land asset to help identify its value, and if the asset needs to be included as a capital budget item for maintenance or replacement. Data was collected using Survey123.

Property ID
Canyon Falls Farms

Asset Information	
Asset Type: IRRIGEEQUIP	Description: Sprinkler Pivot
Asset Tag No.: 1082	Condition: C1 New Construction/Item
Comments: Pivot equipment length is 1230 feet with an R55 rotator with a spray radius of 25 feet. Total working length is 1255 feet. The attached photos will show a distinct difference between the irrigated wheat under the pivot and the overplanted wheat beyond the working length of the pivot. The pivot is only irrigating approximately 114 acres.	

Map

Photos

July 18, 2024 Sentinel-2 L2A Natural Color

This image shows an edge around each pivot where overplanted wheat that is not irrigated under the pivot has begun to ripen faster than the crop under irrigation.

Zoomed in July 18 Sentinel-2 L2A imagery of the eastern half of pivot 1082. Topography may have allowed for run off to provide more water to a small portion of the over planted crop in the SENE QQ.

June 28, 2024 Sentinel-2 L2A Natural Color.

This imagery shows the non-irrigated crop has begun to ripen long before the rest of the irrigated crop. The overplanted wheat around the west pivot (pivot 1081) is harder to distinguish in this image.

October 27, 2023 Sentinel-2 L2A True Color

This image shows that irrigation had occurred under wheel lines after the planting of the crop supporting the observation that the overplanted regions identified in 2024 were supported by a full soil moisture profile going into the winter. This irrigation had occurred before submission of a transfer application and WSB rental application.

May 5, 2024 Sentinel-2 L2A True Color

This image is the most telling Sentinel imagery that shows the irrigated area under the new pivots. Saturated soils under each newly installed pivot can be seen because of the plant growth being in such early stages. This is evident by the darker green circles within a lighter green border surrounding each pivot.

Good morning, James, and Blake,

Please see the attached lease review memo, lease map, and field inspection report (response from the applicant to my inquiry regarding the number of irrigated acres in 2024), for the lease of 10 acres of irrigation under water rights 35-2632 and 35-8218 for five years, and kindly reply with comments or concerns within 10 days. This lease is part of a companion lease rental package. I have updated the lease tracking and associated rental application with a review to follow, below.

All,

Thank you for your attention to this matter. Please see the attached reports of my findings where enlargement of water rights 35-2632 and 35-8218 are concerned.

The water right place of use boundary for these rights is the result of a transfer application submitted by Farmland Reserve Inc. This place of use was created to accommodate two pivots, each irrigating 114 acres. Winter wheat was planted in the fall of 2023 before the pivots were installed. This resulted in the overplanting of the wheat beyond the working length of each pivot on fields 1081 and 1082. That working length being approximately 1255 feet. The hardware length for each pivot is 1230 feet with a R55 rotator sprinkler installed at the end with an approximate reach of 25 to 30 feet. The acres that are actively irrigated remain to be approximately 114 ± 0.5 acres. No irrigation infrastructure exists to irrigate beyond 228 acres.

There may have been multiple conditions that impacted the health of the overplanted crop beyond the 228 acres resulting in Sentinel-2 false color imagery showing a potential enlargement of irrigated acres under these rights. The winter wheat crop was planted in the fall of 2023. At the time of planting, the area was irrigated in its entirety under wheel lines and the new pivots had not yet been installed until after the end of the 2023 irrigation season. This end of the season irrigation in preparation for fall tillage and after planting would have filled the soil profile in the overplanted areas beyond normal dry farm conditions. This coupled with substantial late winter and early spring precipitation, along with cool temperatures in the spring helped keep soil moistures higher at crucial stages of early growth. Stages such as tillering and perhaps even into stem extension stages.

The image below helps illustrate that the pivots have not irrigated the entire planted area. This image along with other photos are included in the attached reports with a detailed description.

Feel free to call me with any questions.

Respectfully,

Jared Adamson

Please provide some additional information about the excess vegetation and if the farm is utilizing the entirety of the two rights for 238 acres.

Re: 198.5 Acre Rental Application and Lease Applications

Dear Ms. Condon:

Farmland Reserve Inc desires to lease 198.5 acres of water rights in the Water Supply Bank and rent 198.5 acres from the Water Supply Bank for the years 2024, 2025, 2026, 2027 and 2028. Attached to this letter is the rental application and ESPA model analysis for the 2024 through 2028 irrigation seasons.

Lease application for 75.5 acres from 35-7969 for the years 2024 through 2028 is attached to this letter. The 76.5 acres to be leased are comprised of pivot corners that will no longer be irrigated. Pivots at this location will be installed and utilized for the 2024 irrigation season. \$250.00 lease application fee.

Lease application for 40.0 acres from 35-4020A for the years 2024 through 2028 is attached to this letter. The 40.0 acres to be leased are comprised of pivot corners that will no longer be irrigated. Pivots at this location will be installed and utilized for the 2024 irrigation season. \$250.00 lease application fee.

Lease application for 12.0 acres from 35-7596 for the years 2024 through 2028 is attached to this letter. The 12.0 acres to be leased are comprised of pivot corners that will no longer be irrigated. Pivots at this location will be installed and utilized for the 2024 irrigation season. \$250.00 lease application fee.

Lease application for 20.0 acres from 35-7611B for the years 2024 through 2028 is attached to this letter. The 20.0 acres to be leased are comprised of pivot corners that will no longer be irrigated. Pivots at this location will be
