Claim # 11-4118 The water from Sheep Hollow creek has been used for stock since the begining of Homestead in 1883. Family has told ~~storie~~ stories of running sheep and a few cows from the begining. Stories have been told about the hours and days spent maintaining the ditch for max. water flow because of ground squirts causing problems from time to time. Those stories were told by Larry Alleman talking about his father and brother all working side by side. Garth and Jennifer Alleman continue to maintain ditch for cattle and Horses today. The only time water is diverted from Slough, for planting and harvesting the field. The rest of the year it is allowed to flow naturally. Cows use ditch and Slough ~~For~~ Spring, Fall and winter and horses year round.
