Hi Brian,

I have received your message regarding the adjudication claims. Yes, I do have the authority to sign those documents on behalf of the City.

Please let me know if you need anything else to update your records.

Hello Chris,

Thanks again for the city water shapefiles, those are just what we were looking for.

The next topic I would like to address in regard to the adjudication claims filed by the city in 2023 is the current representative or signing authority. When the claims were filed, the person who signed on behalf of the City was Rick Roberts, who I believe is your predecessor. In an effort to keep our records up to date, I would like to ask if you have the authority to sign on behalf of the City for this purpose?

Regards,

Brian Wunsch

Dear Brian,

Attached are the updated maps reflecting the city's municipal service boundary and well locations as we discussed.

Please let me know if you need any further information or changes.

Best regards,

Subject: Municipal Service Boundary Request

Hello Chris,

Per our phone conversation today, I am attaching a map depicting the most current record IDWR has for the city's municipal water rights. Please make any changes necessary and send the updated version back or confirm that the original is still accurate. This map should reflect where the city's municipal wells are located and the service boundary where there is actual infrastructure capable of supplying municipal water to.

If you have any questions, please reach out to the number below or to my direct line, 208-701-7205.

Regards,

Brian Wunsch
