TRANSFER SYNOPSIS

Date: March 13, 2023

To: Transfer #87622, Eccles Flying Hat Ranch, LLC file

From: Jim Bitzenburg

Re: Summary of transfer

Application for transfer proposes to change the place of use (POU) for two ground water and four surface water rights, with a combined flow rate of 1.35 cfs, which currently irrigate 42.0 acres of ground within a 675.5 acre permissible place of use (PPU) lying between the north end of Bellevue and Friedman Memorial Airport in Hailey. The proposed 42.0 acre POU will occupy a portion of the ground within the PPU and adjacent land located approximately 1.0 mile north and 0.8 mile west of the intersection of Pine Street and Main Street in Bellevue.

Consent agreements allowing water rights to be transferred off of the 675.5 acre PPU were signed by all parties involved in the water right ownership changes leading up to this transfer and are included in the transfer documents.

The transfer is in Water District 37 so Watermaster comments will be solicited. Advertising is not necessary because the transfer will only change the POU of land within, and contiguous to, the present POU.

The rights involved in the transfer are:

37-2713	Ground Water	0.71 cfs	147.0 AF	42.0 acres
37-7356	Ground Water	0.19 cfs	74.1 AF	42.0 acres
37-483D	Big Wood River	0.24 cfs		42.0 acres
37-577BP	Big Wood River	0.45 cfs		42.0 acres
37-481D	Big Wood River	0.33 cfs		42.0 acres

Re: Legal Notice Not Required

Legal Notice Not Required
3/13/2023

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

The proposed POU is on land within, and contiguous to, the present POU, so there should be no effect on other water rights.

Re: Receipting/disposition of fees paid

This transfer was filed on March 3, 2023, and its purpose is to change the place of use of two ground water and four surface water rights with a combined flow rate of 1.35 cfs. The total flow rate of the portions of each right moving to a new POU is 1.30 cfs, so the corresponding fee from the transfer fee schedule is $580.00. The fee was paid by check #17349 from Brockway Engineering, PLLC at the time of filing. The IDWR receipt number is S039686.

Greg, they have changed to now using the 79 S. Main Street address, we had changed that with the IDWR, so they are correct.. I mailed the signed transfer requests yesterday, they should probably be there the first of the week. Thank you, Marc

Greg-

In data entering the Eccles Flying Hat Ranch, LLC transfer for the six 'left-over' rights from the recent ownership changes, the address for Eccles is different from the address we have in the system. The address in our system is: 79 S MAIN ST FL 2, SALT LAKE CTY UT 84111-1929 while the address on the transfer application is PO BOX 3028, SALT LAKE CITY UT 84110. Does Eccles want their address changed in our system?

Re: Eccles Flying Hat Ranch LLC Water Rights

Dear Mr. Skinner:

Eccles Flying Hat Ranch LLC desires to transfer 42.0 acres of water rights 37-2713, 37-7356, 37-481D, 37-482J, 37-577BP and 37-483D to property they own locally identified as the Myroms property. The ownership, points of diversion, beneficial use and period of use of these water rights will not be changing this this transfer. Only the irrigation place of use will be changing.

Water right 37-885B is currently located at the Myroms property. Water right 37-885B is currently under lease contract with the Idaho Water Supply Bank until the end of 2024. In 2025 water right 37-885B will be leased again into the Idaho Water Supply Bank or transferred to a new POU and POD.

There should be no reason for IDWR to consider any portion of 37-855B stacked or in combination with the 42.0 acres of water rights 37-2713, 37-7356, 37-481D, 37-482J, 37-577BP and 37-483D.

Please contact me if you have any questions.

Sincerely,

Greg Sullivan, M.S., Engineer
