1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

13. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
14. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

MEMORANDUM FOR LEASE APPLICATION # 3404

To: Water Right No. 63-35123

From: Skyler Cheever – Water Resource Agent, Sr – State Office

Date: 1/16/2025

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 3404 was sent in by William Humphries and received by the Idaho Dept. of Water Resources on December 23rd, 2025, with the correct fee payment received the same date. The applicant proposes to lease the entirety of Water Right No. (WR) 63-35123 into the Water Supply Bank from 2026-2027. The proposed point of diversion (POD) is within Administrative Basin 63 and Water District 63 but is not administered. This application is intended as a renewal of lease contract 1993 which expired on December 31st, 2025.

AUTHORITY TO FILE:

William Humphries signed the application. Mr Humphries has the authority to sign because a designated lessor form was attached in which all of the current WR owners, according to Department records, assigned Mr. Humphries as the designated lessor.

WATER RIGHT VALIDITY:

WR 63-35123 was decreed by the SRBA court in 2007 under the parent WR 63-31462. WR 63-34162 was leased into the WSB in 2004 – 2020. An ownership change was approved in 2021 splitting the right and creating the proposed WR. The proposed WR has been leased from 2021-December 31st, 2025. An ownership change was filed after the lease application was received in which a portion of the WR was split. The remaining portion is being proposed for renewal. According to Idaho Code §42-1764 if a WR is leased into the WSB the forfeiture clock resets once the lease expires. Therefore, enough information available to the bank to conclude WR 63-35123 is likely not lost to forfeiture and can be leased into the WSB.

ENLARGEMENT OF USE:

There are no other non-canal company WR's overlapping the proposed place of use (POU). There are New York Canal shares connected to the POU but there are no conditions on the WR limiting use in conjunction with canal water. Therefore, there is no reason to add a condition to the contract limiting use with . There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Accepting valid rights into the water supply bank to provide water for new and supplemental uses is in the local public interest.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The proposed POD is within Administrative Basin 63 and Water District 63 but is not administered. A request for comment was sent to the Western Regional Manager on January 16th, 2026. No concerns were received.
