WATER RIGHT NO. 63-161BN
As Modified by Transfer No. 84658

CONDITIONS OF APPROVAL

5. Diversion under this right and Right No. 63-2932 is subject to all prior water rights and is subject to delivery by the watermaster of Water District No. 63, Boise River and tributaries.
6. Diversion for irrigation under this water right prior to April 1 and after October 31 shall occur only as authorized by the Water District 63 Water Master and only when water is being released for flood control by the United States from the Lucky Peak Dam outlet under procedures and requirements for the Memorandum of Agreement between the U.S. Department of the Army and the U.S. Department of the Interior for Flood Control Operations of the Boise River Reservoirs, dated November 20, 1953, the Water Control Manual for Boise River Reservoirs dated April 1985 and any future amendments or revisions made thereto pursuant to state or federal procedures or law; provided that any such use of this water right prior to April 1 and after October 31 shall be subordinated to water rights for storage in Lucky Peak Reservoir, Lake Lowell, Arrowrock Reservoir, and/or Anderson Ranch Reservoir, as decreed in SRBA Case No. 39576.
7. The primary source of water for the irrigation of up to 141 acres of the Surprise Valley Development is to be provided from Boise River water via this water right . This water right is to be utilized to the maximum extent during periods when it is available for diversion. The water right holder shall develop and maintain operational storage in the amount of 4.0 to 6.0 acre-feet to enable this water right to be used to satisfy diurnal fluctuations in rate of flow demands.
8. The secondary source of water for the irrigation of up to 141 acres of the Surprise Valley Development is to be provided from ground water via Water Right No. 63-2932. This water right is to be utilized only during periods when (1) full diversion under Water Right No. 63-161BN (this right) is inadequate to provide sufficient water to satisfy the irrigation requirements, and (2) during periods not to exceed seven (7) days per irrigation season when the surface water system becomes unoperational due to an unanticipated mechanical failure. The total annual diversion volume under Right No. 63-2932 shall not exceed 14.0 acre feet.
9. This right originated as all or part of right no. 30 in the Stewart Decree and the historic Boise River Water Masters records.
10. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
11. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

CONDITIONS OF APPROVAL

3. The right holder shall make full beneficial use of all surface water available to the right holder for irrigation of lands within the authorized place of use for this right. The right holder may divert ground water under this right to irrigate land with appurtenant surface water rights when the surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The right holder shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.
4. Diversion under this right and Right No. 63-161BN is subject to all prior water rights and is subject to delivery by the watermaster of Water District No. 63, Boise River and tributaries.
5. The water right holder is required to install and maintain totalizing measuring devices subject to approval by the Department which record diversions under this right and Right No. 63-161BN, and to maintain records of these diversions. The measuring devices and records are subject to inspection by the watermaster or the Department upon request, and shall be provided to the Department and the Watermaster no later than December 1 of each year.
6. The primary source of water for the irrigation of up to 141 acres of the Surprise Valley Development is to be provided from Boise River water via Water Right No. 63-161BN. This water right is to be utilized to the maximum extent during periods of time when it is available for diversion. The water right holder shall develop and maintain operational storage in the amount of 4.0 to 6.0 acre-feet to enable this water right to be used to satisfy diurnal fluctuations in rate of flow demands.
7. The secondary source of water for the irrigation of up to 141 acres of the Surprise Valley Development is to be provided by ground water via Water Right No. 63-2932 (this right). This water right is to be utilized only during periods when (1) full diversion under Water Right No. 63-161BN is inadequate to provide sufficient water to satisfy the irrigation requirements, and (2) during periods not to exceed seven (7) days per irrigation season when the surface water system becomes unoperational due to an unanticipated mechanical failure. The total annual diversion volume under Right No. 63-2932 (this right) shall not exceed 14.0 acre feet.
8. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
10. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

Transfer Approval Notice

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 84658
FROM: Justin Shearer
DATE: October 31, 2023
RE: Evaluation of Application

The purpose of this transfer is to expand the Surprise Valley HOA (HOA) place of use boundary 16.3 acres to include Bowler Park. The HOA proposes to provide water to irrigate up to 5 acres of land within the park using water previously held in the Water Supply Bank.

Water leased to City of Boise by the HOA will irrigate 5 acres of land within the park.

Surprise Valley HOA (HOA) filed transfer 84658 for water rights 63-161BN & 63-2932 to propose including Bowler Park (16.3 acres) in their permissible place of use to allow the HOA to provide water for the park using HOA water rights.

The site is located in in SE Boise 1.5 miles NW from the HWY 21/S. Surprise Way intersection and 0.5 miles SE of the Amity Rd/S. Surprise Way intersection in Boise.

Contact person for the applicant is Lori Graves of HDR (formerly SPF Water Engineering) located at 300 E Mallard Dr, STE 350, Boise, ID 83706 and the business phone number is 208-383-4140.

Summary of Information Submitted

Authority to File:

Thomas D Wicher signed on behalf of the Surprise Valley HOA (HOA) and is the president of the HOA. Mr. Wicher has been president of the HOA since 2020 and has been signing on behalf of the HOA for Water Supply Bank documents. HOA website listed Thomas Wicher as President of HOA at time of filing. This should be considered sufficient authority to file.

Water Right Validity:

Water right nos. 63-161BN, and 63-2932 are presumed to be valid. Both rights were decreed in 2007. Department records show that applications to lease these rights to the Water Supply Bank were received in 2009. Subsequently, the portion of these rights being transferred were leased into the Water Supply Bank from 2011 to December 31, 2020. So although the portion of these rights being transferred were never irrigated following being decreed in 2007, the five-year period of non-use for evaluating forfeiture was stopped upon receipt of application to lease said rights to the water supply bank and only resumed in 2021 when the rights came out of the water supply bank. Thus, these rights should be considered valid and not subject to forfeiture.

Water Right Overlap

Water right 63-161BN shares a POD with 8 other rights: 63-198AJ, 63-199B, 63-200B, 63, 30181, 63-31871, 63-123F, 63-12420, 63-12399. However, the overlap is irrelevant to processing of this transfer as no changes to the POD or diversion are proposed. The rights proposed for transfer (63-161BN and 63-2932) have the same PPU currently. There are no other overlapping rights for the existing P/Ds and PPU or the

SCANNED

SEP 17 2024

proposed PPU. No other water rights need to be involved in processing of the transfer.

Water Supply Bank

A portion of these rights are still currently active in the WSB, but 0.1 cfs was left out for the purpose of this transfer. Thus, the portion of rights in the WSB are not a concern in regards to the processing of this transfer.

Injury to Other Water Rights:

No injury should occur as a result of this transfer. There are no changes to the diversion and use of water under the rights, only a clarification of the PPU to include 5 acres of irrigation within a 16.3 acre parcel adjacent to the existing 225 acre PPU. The rights are considered valid as they were decreed in 2007 and thus a resumption of use should be also be considered valid and having no concern of injury to existing rights.

Enlargement of Use:

The diversion rate, annual diversion volume, and number of acres will not increase as a result of the transfer. Irrigation will be limited to previously authorized diversion rate, volume and number of acres within the authorized PPU. Right 63-161BN is a primary surface water irrigation right supplemented by ground water right 63-2932. Current conditions on these rights limiting the diversion rate, volume, and number of acres to be irrigated shall be maintained should this transfer be approved. This transfer proposes to increase the number of acres describing the PPU for the rights, but the number of acres to be irrigated will be maintained as the 141 acres currently authorized.

Local Public Interest:

Allowing the applicant to more accurately describe the PPU to include a proposed park adjacent to the HOA that will be developed by the City of Boise under a private agreement between the applicant and the former party serves the local public interest in that it clearly defines the use of the rights involved in said park development. For these reasons this application proposes a change consistent with the local public interest.

Beneficial Use/Conservation of Water Resources:

The proposed system will be an extension of the existing Surprise Valley HOA system and will accommodate a new measuring device. The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Summary

The application was advertised and no protests were filed. Assuming other information not yet discovered does not contradict the above analysis, the application can be approved as reflected by the draft approval.
