WATER RIGHT NO. 63-12144

As Modified by Transfer No. 90127

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. The right holder shall maintain a totalizing measuring device of a type approved by the Department as a part of the diverting works.

3. The measuring device shall be maintained by the right holder and shall be made available to inspection by Department personnel for the purpose of long-range study and monitoring of the ground water aquifer. The right holder shall maintain records of the amount of water diverted under this right.

4. The right holder is responsible to ensure that pumpage under this right does not directly cause the water level to significantly decline in any domestic wells drilled and in use prior to March 29, 1978, or any irrigation well drilled and in use prior to July 1, 1953, or to cause the water level in any other well having a prior right to exceed a reasonable pumping level, unless the right holder provides reasonable compensation or mitigation to the prior water right holder for the reduced water levels as determined by the Director.

5. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

6. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

7. After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

8. This right does not grant any right-of-way or easement across the land of another.

9. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.

10. The daily diversion volume for non-domestic uses under this municipal right shall not exceed 2,500 gallons per use.

11. The irrigation occurring under this municipal use shall not exceed 1/2 acre within each platted subdivision lot upon which a domestic dwelling has been constructed.

12. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, this right retains its original priority for well locations authorized under this right as identified in license dated 08/17/2001.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right at Caldwell Well No. 4 located in T04N R03W S15 NENE.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.
2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.
3. Right Nos. 63-05054 and 63-05055 shall not exceed a total combined rate of diversion of 2.23 cfs.
4. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
6. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.
7. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from a well located in T04N, R03W, S34, NWSW.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Caldwell Well No 7 located in T04N R03W S35 NWNE.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from 12 wells at the Memorial Park Well Field located in T04N, R03W, S28, NENE.

7. The partial decree dated 05/01/2012 authorized the following additional wells as points of diversion under this right:

   - Well 13 located in T03N R02W S6 L5(SWNW)
   - Well 4B located in T04N R03W S15 NENE
   - Well 8 located in T04N R03W S21 SESW

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Caldwell Well No. 10 located in T04N R03W S28 SENE.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Caldwell Well No. 13 located in T03N R02W S6 L5 (SWNW).

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Well 4B located in T04N R03W S15 NENE.

CONDITIONS OF APPROVAL

12. Diversion of water from the additional wells authorized under Transfer 90127 located in T03N R03W S9 NWNE and T03N R03W S11 SESW shall not exceed a total combined maximum diversion rate of 8.91 cfs under rights 63-3441, 63-5051, 63-5053, 63-5054, 63-5055, 63-7158, 63-7910, 63-8008, 63-8299, 63-8986, 63-8987, 63-9358, 63-10316, 63-10317, 63-12144, 63-31283, 63-31550, 63-32024, 63-32025, 63-32026, 63-32027, 63-32028, 63-32029, 63-32030, 63-32031, 63-32032, 63-32033, 63-32038.

13. This right does not grant any right-of-way or easement across the land of another.

14. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.

15. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

16. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

17. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from six wells at the Memorial Park Well Field located in T04N, R03W, S28, NENE.

7. The partial decree dated 05/01/2012 authorized the following additional wells as points of diversion under this right:

   - Well 13 located in T03N R02W S6 L5(SWNW)
   - Well 4B located in T04N R03W S15 NENE
   - Well 8 located in T04N R03W S21 SESW

CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Caldwell municipal water supply system as provided for under Idaho Law.

2. A map generally depicting the service area for this water right at the time of this approval is attached to this document for illustrative purposes.

3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Prior to diversion and use of water under Transfer approval 85741, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.

5. After specific notification by the Department, the right holder shall record the quantity of water diverted and shall annually report the information to the Department.

6. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Rose Garden Well No. 4 at the Luby Park Well Field located in T04N, R03W, S22, NENE.

Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 90127 and Water Right Files

FROM: Allen Bradbury

RE: Evaluation of Application for Transfer 90127

DATE: November 12, 2025

In application for transfer 90127, the applicant, the City of Caldwell ("City"), proposes adding two new wells (identified as "Well 23" and "Well 24") to 28 existing water rights. Right Nos. 63-3441, 63-5051, 63-5053, 63-5054, 63-5055, 63-7158, 63-7910, 63-8008, 63-8299, 63-8986, 63-8987, 63-9358, 63-10316, 63-10317, 63-12144, 63-31283, 63-31550, 63-32024, 63-32025, 63-32026, 63-32027, 63-32028, 63-32029, 63-32030, 63-32031, 63-32032, 63-32033, 63-32038.

The application was advertised with a protest deadline date of January 5, 2026. The application was not protested.

In an email dated November 18, 2025, Ashley Newbry, PE CFM, Deputy Director (Water) agreed to remove water rights 63-3484, 63-7900, and 63-10674, leaving 28 water rights as part of the transfer.

Water will be used within the current municipal place of use for the City of Caldwell.

Summary of Information Submitted

Authority to File: The City is the owner of record for all water rights involved in the transfer. The application was signed by Robb MacDonald, Public Works Director, and Ashley Newbry, Deputy Public Works Director for the City.

Proposed well #23 will be constructed in Township 03N Range 03W Section 9 NWNE (parcel R3267801100), which Canyon County tax parcel data lists as currently owned by Toll West Inc. A letter of consent was provided with the application signed by Denise Bourne, vice president, on August 11, 2025.

Proposed well #24 will be constructed in Township 03N Range 03W Section 11 SESW (parcel R3274300000), which Canyon County tax parcel data lists as currently owned by Florida-Karcher LLC. A letter of consent was provided with the application signed by Troy Dana, managing partner, on September 23, 2025.

The applicant has the authority to request the changes proposed by the application.

Water Right Validity/Historical Beneficial Use: The water rights involved in the transfer authorize the use of ground water for municipal purposes within the City's service area. It is unlikely the City has diverted less water than its customers have demand for. Therefore, the rights are presumed valid.

Injury to Other Water Rights: There are about ten known wells within the 1/3-mile of Well #24. On approval of the transfer, each water right will have conditions identifying both the originally-authorized point of diversion and points of diversion added through subsequent processes. These conditions are necessary to prevent injury to existing water rights through either local well

interference or the dilution of priority of other water rights in the event of limited regional curtailment.

Enlargement of Use: Water rights 63-3484 and 63-7900 (collectively "irrigation rights") authorize the use of ground water for "Municipal". The partial decree for 63-3484 lists acreage values, a season of use from 03/15 to 11/15, and the "shoulder season condition" allowing the use of water under the right to begin on March 1. It is clear that, while the term used to describe the beneficial use authorized by 63-3484 is "municipal", the actual beneficial use is the irrigation of 100 total acres. Similarly, a condition of approval for 63-7900 says "Municipal use is for the irrigation of the Fairview Golf Course". If the City were allowed to divert the irrigation rights from a well shared with the other municipal water rights, the irrigation rights may be enlarged. To prevent enlargement, the City would need to configure the system at Well 23 and Well 24 such that the rate authorized by the irrigation rights would not be diverted unless the lands appurtenant to those rights were being irrigated. Water right 63-10674 is for regular municipal use but only lists a single POD in the SESE of Sec 28, T05N R03W. This point of diversion is not associated with any of the other water rights in the transfer.

In an email dated November 18, 2025, Ashley Newbry, PE CFM, Deputy Director (Water) agreed to remove water rights 63-3484, 63-7900, and 63-10674. Therefore, the transfer does not propose any change to the diversion rate or volume nor any unsubordinated change to the season of use. For these reasons, an enlargement of use is not anticipated as a result of this transfer.

Local Public Interest: There are no anticipated negative impacts to recreation, fish, or wildlife as a result of this transfer. There is no indication that any applicable water or hazardous substance standards designed to protect water resources would be violated. This transfer is compatible with the objectives and policies of the State Water Plan. The application was advertised and was not protested. There is no information to suggest the changes proposed in the application conflict with the local public interest.

Beneficial Use/Conservation of Water Resources: The applicant intends to continue to use the rights involved in the transfer to provide water to customers for municipal purposes. The application proposes beneficial use consistent with conservation of water resources in Idaho. No issues were identified.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Additional Information/Analysis

Overlap Analysis:

Discussion

Conditions: If approved the following changes should be made to the conditions of water rights.

Two prior transfers, no. 85741and no. 89462, added conditions to each of the water rights involved in the transfer to identify the additional PODs added by the transfer. The same has been done to show that Well 23 and Well 24 were added through this transfer. Two conditions were added to each of the affected water rights.

> *Transfer 90127 authorizes the following additional well(s) as point(s) of diversion under this right as of the date of the approval: Well 23 located in T03N R03W S9 NWNE and Well 24 located in T03N R03W S11 SESW*
>
> *Diversion of water from the additional wells authorized under Transfer 90127 located in T03N R03W S9 NWNE and T03N R03W S11 SESW shall not exceed a total combined maximum*

diversion rate of 8.91 cfs under rights 63-3441, 63-5051, 63-5053, 63-5054, 63-5055, 63-7158, 63-7910, 63-8008, 63-8299, 63-8986, 63-8987, 63-9358, 63-10316, 63-10317, 63-12144, 63-31283, 63-31550, 63-32024, 63-32025, 63-32026, 63-32027, 63-32028, 63-32029, 63-32030, 63-32031, 63-32032, 63-32033, 63-32038.

Water right 63-12144 has additional conditions that the other rights do not have. This water right was included in transfer no. 85741but it was missed in transfer no. 89462. Water right 63-12144 was included in this transfer as it is evidenced by the points of diversion and conditions already on the water right.

Summary

Assuming no other information contradicts the above analysis, the application can be approved as reflected by the draft approval.
